Race 1

1. BELLARIVA - Very lightly raced with just the three starts and did win the middle of those at Cagnes-sur-Mer so has a big shout being so unexposed
2. SAMOTHRACE - A two time winner from just the five outings including last time out at Chantilly so is in form for certain but more is required
3. KARAK - One victory from seven runs and appears consistent enough with a second at Salon de Provence last time out. Fair chance of going well here
4. CAMPROND - Just the five outings and got off the mark on penultimate one. Good first time effort in a Quinte Plus last time out at ParisLongchamp but more to do
5. DRIVEN - Just the four starts and got off the mark last time at Salon de Provence so confidence should be high now after that breakthrough
6. LYONS - Just the five runs and was improving until gaining the breakthrough at Strasbourg last time and can come on from that here today
7. TRENINO - All four runs have come this season and after placing in first three got off the mark last time at Chateaubriant so all things possible now
8. WISHCAPE - One success from five and placed in all the other four including third in a claimer at ParisLongchamp last time. More required
9. TORONADA - One success from five and placed in three others including third in one of these at ParisLongchamp last time out so every chance today
10. JOE BLINING - Won the middle of three starts and this is first go in a handicap so the chances are that the experience will be needed today
11. MARRAKECH EXPRESS - Both wins from eleven came in a row late last season and has been running adequately since then but others look better placed today
12. HOUESVILLE - She has achieved one win from seven outings and the feeling is that she is not progressing right now so avoided

13. IN VERO VERITAS - Much improved for debut last season when winning once this term and also getting two runner up positions so more to come here perhaps

14. ISKANDERHON - Still a maiden after eight runs but was placed in a few of those and ran with merit when fifth at ParisLongchamp last time so all not lost

15. WADDAH - Just the three starts and they all came this season. Won the middle of those and having first handicap experience today

16. ARUM - A triple winner from eight starts including two of last three and at ParisLongchamp last time out so all to play for here too

17. SIMILAIRE - One success from eleven runs and whilst looking ever so exposed at the minute can still be capable of a bold show here

18. HAMAN VILLE - Just the one success from her dozen outings but has been so consistent all the time and will bid to stake a big claim here today for certain

Summary

This opening event features the big betting Quinte Plus handicap and this time it is for three year olds only. It is noticeable that many of the contenders are very lightly raced so there will be many dark horses lurking.
