Seoul Race 5: Class 6 (1400M) Allowance / KRW 25 Million

Another maiden event for the Korean-breds where a compact field of ten line up over the seven furlongs. (4) WHITE WING is the on top selection as she lines up for her second career start. The Concord Point filly overcame a wide draw on debut before sitting midfield, running through the line strong to finish third. With a better draw today, Park Eul-woon can let her find her feet naturally before settling her just of speed. If she finishes off in similar fashion to last start she can take out the event. (3) SHINY QUEEN brings some good formlines into the race finishing third and fourth respectively to Goldilocks and Never Walk Alone. She seems to have improved with a few more starts under her belt, treat her as a winning chance. (6) MENI STORM looks a place chance if she can improve a couple of lengths. The filly ran through the line well last start when she was tried over this distance for the first time. (7) THUNDER WIND looks next best after finishing fourth behind Alchan Nuri last month.

Busan Race 2: Class 5 (1600M) Allowance / KRW 40 Million

The Class Five gallopers line up in the fifth event over 1600m. (6) BORNE MATTA comes off a good performance last start when second behind Ultra Phoenix. The Testa Matta showed good early speed before finishing off well over 1400m. You Hyun-myung will partner the four-year-old and is likely to settle him in the forward half of the field. (7) B.K. EUAN is an eleven start maiden but has shown some promising performances. The three-year-old finished fourth three weeks ago behind Speed Kingdom when sitting in the leading division. He will get the claim of Mo Jun-ho once again and should take improvement from the last run. (8) MAGIC HORSE has been thereabouts at her past few starts including a last start fourth behind B.K John over 1400m. She has previously placed over the Busan mile and appears an each-way chance. (2) ACE JILJU lines up for his second-up effort after finishing midfield behind the promising Fantastic Man last time out. His strike rate is poor but if he were to collect a minor cheque it would not surprise.

Selections	(6) Borne Matta (7) B.K. Euan (8) Magic Horse (2) Ace Jilju

Seoul Race 6: Class 4 (1400M) Allowance / KRW 60 Million

(5) ROCKUI JEWANG beat a couple of these on his way to 4th place at class and distance on October 16th. He came from off the pace to record what was his best finish to date and he looks nicely in here again to this time come out on top. (4) JEOLYE is a proven winner and has posted the fastest time of any of these over this distance. She has mixed her form and has been beaten by a couple of these in recent outings but has some quality about her and should be heavily involved. One of those to have finished ahead of Jeolye is (3) ECHO FIRST ON. She is yet to win in thirteen starts and is another who mixes her form, but she has tended to go well when drawn inside and can get forward early. (8) DOLGYEOK APEURO and (10) ROAD BLACK are others in at least the placing hunt.

Busan Race 3: Class 5 (1600M) Allowance / KRW 40 Million

(1) GEUMA NIPPY obliged at the second time of asking on October 23rd with a front-running win over class and distance. That was during the period of reduced prize money racing so he gets no penalty for it and there is no reason why he can't repeat today. He'll be close to the pace from the start and is likely to be the prohibitive favourite. (7) SMART MOD is a locally bred galloper who has won his way up to this level. His first crack at it back in June didn't go especially well but the extended break may have done him some good. He certainly knows how to win at this distance. That layoff may also have worked out for (10) K.B. BOSS who was losing his way somewhat in the summer. He trialed up very nicely at the beginning of this month and can be given another chance today (although a word of warning – he trialed up well before his last preparation too. Aside from the favourite, it isn't a daunting race so there could be an opportunity for the solitary debut-maker (5) MR. SSAK THREE to go well first up.

Seoul Race 7: Class 3 (1200M) Handicap / KRW 75 Million

The seventh is a Class Three to get excited about, with some handy types to battle it out over the 1200m. The progressive (8) CHOEGANG TEAM looks one of the main chances after what he showed us as a two-year-old/early three-year-old. The Old Fashioned colt finished second behind champion two-year-old Roller Blade in the two-year-old features last year before winning a Class Four in good style. The three-year-old has had one run since, lining up in the KRA Cup Mile when never threatening. He was won three from six with two minor placings to

his name as well. (7) NIMUI HYANGGI is proven in this class and needs to be treated as an each way prospect. He has placed at his past two starts in this grade. He should be given every chance by David Breux who will work forward on the four-year-old early. (5) YEONHUI ILCHUL is up in grade after a superb performance at each way odds, beating Raon Tap Man. Lee Joon-chel has formed a good relationship with the galloper, he is likely to send her forward from a good draw to sit on pace. (9) TRI THUNDER was a last start winner in this grade and was not missed by the handicapper, penalizing him 4.5kg for the win. Keep him safe.

Selections	(8) Choegang Team (7) Nimui Hyanggi (5) Yeonhui Ilchul (9) Tri Thunder

Busan Race 4: Class 3 (1200M) Handicap / KRW 75 Million

Some very handy three-year-olds line up in the fourth in a Class Three event over the six furlongs. Promising type (8) DOCTOR CARSON looks one of the main chances after going down a nose to I'm Your Fashion last start. The Hansen three-year-old lined up in the Korean Derby but struggled over the two turns. He performed well last start and with a slightly better draw he looks a good chance to turn the tables today. Last start winner and promising type (10) I'M YOUR FASHION is obviously a winning chance based on the last victory, where no penalty for the win was received. He will lead the field into the turn but the question is how much petrol will he burn getting to the front, with some early speed drawn inside of the three-year-old. (11) B.K. VICTOR has his first run since July where he finished second behind Top Day, clocking a time that would see him win an event similar to this assignment. He is consistently around the money and cannot be discounted as a winning chance. (4) OCEAN PHOENIX is the best drawn of the preferred runners engaged. Djordje Perovic will most likely find the fence first of the likely pacemakers. She comes off a second last start behind Star Oreum. Based on previous performances she looks an each-way chance in the race.

Selections	(8) Doctor Carson (10) I'm Your Fashion (11) B.K. Victor (4) Ocean Phoenix

Seoul Race 8: Class 5 (1700M) Allowance / KRW 40 Million

(5) GABO PULL QUEEN has taken to racing around two turns extremely well with a 2nd and a 4th in two tries at this distance leaving a number of her rivals here back down the track in the process on both occasions. She'll settle in mid position here and should prove too strong in the closing stages. (2) MUSSANG HWANGHU looks to be on the way up. She made her breakthrough at the third time of asking with an all the way performance over 1400M in August and Luigi Riccardi's filly can be a challenger here on her first try around two turns. (9)

DANGDAE ROYAL and (8) NINE EYE were both below par when they raced one another over 1400M a month ago but both are better than that and can be considered for places in a race such as this.

Busan Race 5: Class 4 (1800M) Allowance / KRW 60 Million

(1) MISS FACT has proven somewhat adept at avoiding the winner's circle and even more so at disappointing punters with quinella tickets. She's won twice and has never finished 2nd but has six 3rd place finishes to her name. Nevertheless, many signs point to her winning this. She has the fastest time for the distance, and has shown consistently good form around two turns. She's nicely drawn and has a competitive weight and has been competing in company stiffer than this. If she does disappoint again then (8) YEOWANGUI MISO could take advantage. An also-ran in the Oaks in August, she then won over a mile before beating several of these on her way to 3rd place over 1400M in October. Nicely weighted and with a top jockey aboard, she should go well here. So too should (9) HWARANGUICHAMPION has also beaten a number of these in the recent past. He comes in having run a strong 2nd over 1200M at the end of last month but has performed well over this distance as well and has strong claims. (2) MR. VALOR and (6) HAPPY GATE the best of the rest.

Seoul Race 9: Class 2 (1800M) Allowance / KRW 90 Million

The ninth has a field of ten to line up over the two turns at Class Two level. (5) PLATINUM EURO looks hard to beat based on what the Eurosilver gelding has done to date. He comes off a last start win in August over this distance when leading throughout. With limited speed engaged, Moon Se-young should be able to lead and dictate the speed of the race. It has been a long time between drinks for (1) CHOINMA but he can never be discounted in a race such as this. The Lee Gwan-ho trained galloper should get the run of the race from an inside draw. He comes off a midfield performance back in August behind Wonderful Evil in a restricted class feature. (10) TOP BRAIN is another who has handed in some good performances in this grade. He is a versatile type who has previously performed well from both on-speed and towards the tail. He will most likely settle rearwards with the wide draw. (7) GEUMA WHOLESOME takes a step to the next level as the Gemologist gelding lines up for his first start in Class Two company. He looks best suited on a place line in your selections.

Busan Race 6: Class 2 (1400M) Handicap / KRW 90 Million

There's plenty of class engaged in the sixth where a field of twelve will face the starter. The progressive (4) THUNDER FLY looks hard to beat after an impressive win last time out over this distance. The Thunder Moccasin gelding flooded home in October to win in good style. He has accumulated seven wins from nineteen starts and is capable of adding another to his tally today. (5) HAPPY FEVER is another promising type who has won three from ten and placed on five occasions. The three-year-old carries a favourable 54kg and will have the in-form Choi Si-dae who keeps booting winner after winner home. (10) ADELE STAR should not be forgotten when assessing your selections. The gelding has reached his mark in this grade but is capable of filling a place. He was disappointing last start but his second two starts back behind Rapido Man reads extremely well for this assignment. (12) WONDERFUL LION has done little wrong in her fifteen start career. She finished third behind Thunder Fly last time out and with some improvement can figure once again. The draw seems to be the concern as she normally appreciated being close to the speed.

Seoul Race 10: Class 4 (1400M) Handicap / KRW 60 Million

Very tricky race here. We'll go with (6) NEW MOON WARRIOR, who has never finished worse than 2nd in five career starts, to continue with his positive start. He was a strong 2nd at this trip last time and is likely to be ridden prominently from the start by Moon Se Young. (9) SARAMIRANEUNBYEOL could turn out to be the primary danger. He won back to back races during the summer season and before running 4th on his first try at this class a month ago. He has the fastest time of any of these at the distance and should go well. (1) GREEN DARC mixes his form but comes in off a smart 2nd place at class and distance last time and should be a factor. (4) CLEAN UP HAPPY and (7) LADY KELLY are others in the hunt.

Seoul Race 11: Class 1 (1400M) Handicap / KRW 110 Million

Some handy horse flesh will be on display in the eleventh where some topline sprinters line up over the 1400m. (8) MORFHIS looks the one to beat based on his performances this year. He took out the SBS Sports Cup in July before finishing a game third behind East Jet in the Chairman's Cup. He has to carry the 58kg but he has done that time and time before. The 1400m is his ideal distance and no other horse will be hitting the line as strong as him. (5) MUNHAK TIGER is a winner of five races from fourteen starts. The four-year-old has won his past three starts including a Class 1 last time out when defeating Clean Up Secret. He drops in weight with handicap conditions and with the 51kg he has to be a big chance. (11) SKY BAY is a multiple Class One winner and is another that gets in well at the weight scale. The mare finished midfield last start in the Ttukseom earlier this year, behind boom filly Dia Road. She hasn't carried this featherweight in quite some time. (4) CHEONGSU YEOGEOL comes out of the Ttukseom as well where she finished fourth. She has been aimed at the fillies and mares features in previous runs, but she looks capable of finishing in the minor money.
