GAME RULES FOR FOOTBALL BETTING ("FOOTBALL BETTING GAME RULES")

The following Rules are laid down by Singapore Pools (Private) Limited ("Singapore Pools", "we", "us" or "our") for Football Betting.

1. Objective

1.1 In Football Betting, you are placing a wager on any one of the possible outcomes of a football event under a selected bet type offered by Singapore Pools. A betting ticket includes both physical tickets issued offline for bets placed physically, as well as digital records and e-tickets issued for bets placed via remote betting. To qualify for a winning prize, your selected outcome on your betting ticket must correspond to the result of the relevant football event that is declared by us to be the winning selection.

2. How to Play

2.1 In Football Betting, you are essentially placing wagers on possible events and outcomes relating to all or part of the duration of a football match and/or a Championship (as defined in the **Appendix**) ("**Football Event**"). More information on the rules and bet types applicable to Football Betting is set out in the **Appendix**.

3. Placing your bets

3.1 You are able to place your bets for Football Betting either (a) physically at our betting outlets and authorised retailers; or (b) remotely through our website and mobile app.

3.2 Bets may be placed before the commencement of the Football Event. Singapore Pools may offer betting up to sixty (60) days, or such shorter time as determined by Singapore Pools, prior to the commencement of the Football Event until the prescribed time for the closure of the bet placement period as may be determined by Singapore Pools in its sole and absolute discretion. Bets may also be placed while the Football Event is in progress should live betting be offered by Singapore Pools for the Football Event. For the avoidance of doubt, the offering of live betting for a Football Event is in our sole and absolute discretion, and we may stop offering live betting at any time even if live coverage for a Football Event is or continues to be offered. If a bet is successfully placed at betting outlets and authorised retailers, you will receive a betting ticket, which will serve as

proof that your bet has been validly placed. If a bet is successfully placed through your verified account that is opened and operated by Singapore Pools for the purpose of remote betting ("**Remote Betting Account**") via the Singapore Pools website and mobile app, you will receive a confirmation that your bet has been successfully placed. The bet will be recorded in your Remote Betting Account, and such record will serve as proof that your bet has been validly placed. Your bet will be deemed to be valid and accepted by Singapore Pools only if full payment has been made for the requisite stake amount for your bet. If such full payment is not made, the bet will be invalid and rejected by Singapore Pools. It is your responsibility to ensure that the data printed on the physical betting ticket, e-ticket or recorded in the Remote Betting Account are in accordance with your instructions.

3.3 Depending on the Football Event in question, selected bet types may be offered for betting at the sole and absolute discretion of Singapore Pools at any point in time, including before the start of and/or during the relevant Football Event.

3.4 Unless otherwise provided in these Football Betting Game Rules, Singapore Pools shall, at our sole and absolute discretion, determine the odds applicable to each selection for a particular bet type at the time when we begin to accept bets in respect of a particular Football Event. We may, at our sole and absolute discretion, vary the said odds from time to time until such time that we cease to accept bets in respect of the particular Football Event. For the avoidance of doubt, the acceptance of a bet at any particular odds by Singapore Pools shall not oblige us to accept any other bet on the same selection at the same odds.

3.5 The amount you are wagering for each bet (otherwise known as the "**stake**") shall be in multiples of one (1) Singapore dollar, except that where a bet is placed through remote betting channels, the stake need not be in multiples of one (1) Singapore dollar so long as it is expressed in whole dollars and cents and complies with the minimum stake requirements set out in Clause 3.6(b). Goods and Services Tax (GST) is payable on the stake for a betting ticket. You may make payment of the stake and GST thereon by way of any of the modes of payment which Singapore Pools may, in its sole and absolute discretion, accept from time to time, including but not limited to payment by way of the use of betting vouchers which may be issued by Singapore Pools and in accordance with the terms and conditions governing the usage of such betting vouchers.

3.6 The minimum stake payable for every betting ticket for Football Betting shall be as follows:

a) If the bet is placed at betting outlets and authorised retailers, the minimum stake payable shall be no less than five (5) dollars, except for the Multiples bet type where the stake payable shall be no less than one (1) dollar; and

b) If the bet is placed through remote betting, the minimum stake payable shall be no less than one (1) dollar.

3.7 Singapore Pools has the full discretion to determine the maximum number of bets that you may place from time to time. At the time of placing your bets, you will only be able to place up to this determined maximum number of bets.

3.8 Singapore Pools has full discretion from time to time, to determine the maximum and minimum limits of the stake that you may place, as well as any other conditions attached to such stake as may be notified to you through the Singapore Pools website or mobile app.

4. Prizes – Declaration of Winnings

4.1 Official information on the results of the relevant Football Event will be released by us on the Singapore Pools website as and when such results are available to us. We reserve the right to rectify any errors discovered after the official information has been released on the Singapore Pools website, and the results of the relevant Football Event will be as stated in the latest rectified version on the Singapore Pools website. Otherwise, the results of the relevant Football Event shall be as announced on the Singapore Pools website.

4.2 Unless otherwise provided in these Football Betting Game Rules (including but not limited to where Cash Out (as defined in the **Appendix**) is available for your bet), to qualify for a winning prize, your selected outcome on your betting ticket for a particular bet type in respect of a Football Event must correspond to the result which is declared by Singapore Pools to be the winning selection for the said bet type.

4.3 Unless otherwise provided in these Football Betting Game Rules (including but not limited to where Cash Out (as defined in the **Appendix**) is available for your bet and you have submitted a Cash Out request that is accepted by us), the prize in respect of your bet shall be the amount stated to be as such on your betting ticket, or the amount as may be computed based on the relevant stake and the odds of your bet. For the avoidance of doubt, where a betting ticket has been issued in respect of your betting selection, any variation in the odds thereafter of your betting selection shall not affect the prize in respect of your bet as encapsulated in your betting ticket.

4.4 In the event of a Dead Heat, i.e. a situation where two or more competitors or players achieve identical results for a betting event, the winning prize shall be calculated by dividing the stake placed on the selection involved in the Dead Heat by the number of competitors or players who achieved the identical result, and then multiplying the divided amount by the odds applicable to the selection.

5. Irregularities

A. Refunds

5.1 Refunds are not available for any purchases made in respect of Football Betting, save where provided for in these Football Betting Game Rules. Various scenarios in which refunds will be made available are set out below.

5.2 Subject to any contrary provisions within these Football Betting Game Rules, Singapore Pools will refund you for bets placed on a Football Event, if no result has been declared by us for the relevant bet type of your bets in the following scenarios which will render the bets void:

(a) The venue is changed after the start of betting but before the commencement of the Football Event; or

(b) The Football Event is called off (including but not limited to abandonment, postponement, suspension and cancellation) after the start of betting, and where, at the time that Singapore Pools declares or announces its decision on how to treat the bets involved:

i. No replay or resumption of the Football Event has been scheduled;

ii. A replay or resumption of the Football Event has been scheduled, but the venue of the Football Event has changed; or

iii. A replay or resumption of the Football Event has been scheduled, but the date of such replay or resumption does not fall within 36 hours of the original scheduled time and date of the Football Event.

5.3 For the avoidance of doubt, the late start of a Football Event does not constitute postponement or the calling off of a Football Event, provided that the start time of the Football Event falls within 12 hours of the original scheduled start time and there has been no change in the venue.

5.4 Where a Football Event has been called off (including but not limited to abandonment, postponement, suspension and cancellation) and Singapore Pools announces that a replay or resumption of the Football Event shall take place in lieu of the originally scheduled Football Event, Singapore Pools may, at our sole and absolute discretion, extend the deadline for accepting any bets in respect of the Football Event, or if betting has already closed for the Football Event, to allow for a fresh round of betting for the Football Event.

5.5 Where the start date and/or time of any Football Event is brought forward such that it occurs before the deadline determined by Singapore Pools at our sole and absolute discretion to constitute the close of betting for the said Football Event, then the close of betting for the Football Event shall be deemed to be immediately prior to the new start date and/or time of the Football Event. All bets placed with and accepted by us after such deemed close of betting shall be null and void, and we will make refunds for all such bets placed for the Football Event.

5.6 Clause 5.5 shall not apply where Singapore Pools has determined that the close of betting shall be after the start date and/or time of the Football Event. In this situation, you may continue to place bets during the Football Event up till the

close of betting at such date and/or time as determined by Singapore Pools at our sole and absolute discretion.

5.7 Singapore Pools will make refunds for any bets for Football Betting which have been declared to be null and void. Refunds may also be available in respect of specific bet types where provided for in the **Appendix.**

5.8 Notwithstanding and without prejudice to any other provision in these Football Betting Game Rules, Singapore Pools may pay refunds for any bets in respect of any Football Event, including but not limited to refunds for bets placed after the close of betting, where Singapore Pools so determines at our sole and absolute discretion, without needing to give any reasons for doing so.

B. Other Irregularities

5.9 Where there is any uncertainty relating to the results of any Football Event, we reserve the right to suspend the settlement of all affected bets pending the verification and confirmation of the results of the relevant football event.

5.10 Where there is evidence of any rigging of any Football Event which is the subject of any bet placed with Singapore Pools, we reserve the right to do any or all of the following:

a) Delay the announcement of the results of the affected Football Events;

b) Withhold payment of the relevant prizes pending the outcome of any investigation into the suspected rigging;

c) Withhold payment of the relevant prizes pending verification of the suspected rigging;

d) Declare bets on the relevant event as void. In such an event, all bets on the relevant event shall be refunded.

5.11 Where Singapore Pools has reason to believe or suspect that a live bet has been placed after the outcome of a live Football Event is known, or if delayed or lagged "live" television coverage results in a live bet being placed after you have gained an advantage at our sole and absolute opinion, we shall be entitled to treat the bet as void without being obliged to provide any reason whatsoever.

5.12 In the event of any disqualification, objection, appeal, official inquiry, application to amend scores or other protest of any nature whatsoever: -
a) in respect of any Football Event; or
b) which affect the scores or results of said Football Event,
Singapore Pools may, at our sole and absolute discretion, disregard such protest, treat such protest as invalid, and declare the final outcome of the various bet types in respect of the relevant Football Event in accordance with the scores or result reached, immediately upon the conclusion of the relevant Football Event, or prior to the making of the relevant protest. Such final outcome shall not be affected by

any subsequent review or modification of the score or result of the relevant Football Event as a consequence of or in connection with such protest.

5.13 Where any error or miscalculation of any prize is discovered at any time, Singapore Pools shall be empowered at our sole and absolute discretion to declare a revised prize.

5.14 Where a revised prize is declared by Singapore Pools in respect of your winning betting ticket:

a) If you have not previously been paid a prize in respect of your winning betting ticket, you shall be paid the full revised prize.

b) Where you have been paid the original prize and the revised prize is higher in value than the original prize, you shall be entitled to claim the difference between the original prize and the revised prize, subject to any reasonable conditions of payment which Singapore Pools may impose at our sole and absolute discretion.

c) If you have failed to present yourself for the collection of the revised prize of the difference between the original prize and the revised prize by the expiration of the time specified by Singapore Pools for the payment of the revised prize, or otherwise failed to adequately identify yourself to our satisfaction or to accept our conditions of payment, the unclaimed revised prize or difference shall be forfeited.

d) Where you have been paid the original prize and the revised prize is lower in value than the original prize, Singapore Pools shall be entitled to recover the difference from you.

6. General Provisions

6.1 These Football Betting Game Rules shall apply to all bets placed on or after 29 May 2026.

6.2 By placing a bet for Football Betting, you agree to be bound by these Football Betting Game Rules and the Appendix.

APPENDIX TO FOOTBALL BETTING GAME RULES

1. Definitions

1.1 The following definitions are relevant for the purposes of Football Betting:

(a) "**0 Goal**" means no Valid Goals were scored in a football match.

(b) "**Away Team**" means the team that is mentioned second in any table published by Singapore Pools for the purposes of Football Betting, or such team which we specifically describe as the "Away Team".

(c) "**Cash Out**" means the feature or option that allows you to settle your bet(s) before the result (i.e. the winning selection / outcome) for the particular bet type is declared by us, and which may be offered by us from time to time and on such bet types, betting selections and Football Events as we may decide in our sole and absolute discretion.

(d) "**Cash Out Amount**" means the amount payable by us to you in respect of your Cash Out request as at the time that such Cash Out request is accepted by us.

(e) "**Championship**" refers to a specified football championship, League, Tournament or other football competition.

(f) "**Defined List**" refers to the selection of matches Singapore Pools publishes for the various bet types described below at Appendices A1 to A63.

(g) "**Extra Time**" means the scheduled additional 30 minutes of play or other duration as may be decided by the match officials plus stoppage or added time upon the conclusion of the Regulation Time.

(h) "**Extra Time Score**" means the Score of a football match for only the Extra Time of the match. For the avoidance of doubt, the Extra Time Score shall expressly exclude the Full Time Score.

(i) "**First Half**" means the scheduled first 45 minutes of play commencing from kickoff of the football match, plus stoppage or added time.

(j) "**First Half Score**" means the Score of a football match as at the end of the First Half.

(k) "**Full Time Score**" means the Score of a football match as at the end of Regulation Time. For the avoidance of doubt, the Full Time Score shall not include any goals scored in Extra Time or as a result of a penalty shoot-out.

(l) "**Group**" means a grouping of football teams participating in a Championship as determined by the organisers of the Championship.

(m) "**Handicap**" means an advantage or disadvantage, expressed in either fractions, decimals or whole numbers, as determined by Singapore Pools and conferred upon any team. In a bet type involving a Handicap, you will select the value of the Handicap and the team on which the Handicap will be applied to. The Handicap will then be applied to the Valid Goals scored by that team when determining whether you have won the bet.

(n) "**Home Team**" means the team that is mentioned first in any table published by Singapore Pools for the purposes of Football Betting, or such team which we specifically describe as the "Home Team".

(o) "**League**" means a football league comprised of multiple football teams which will play against each other in a league format.

(p) "**Own Goal**" means a goal scored by a player from one team against his own team, which will be registered as a goal in favour of the opposing team.

(q) "**Regulation Time**" means both the First Half and the Second Half. For the avoidance of doubt, Regulation Time excludes any allocated Extra Time or time for the execution of penalty shootouts.

(r) "**Return**" means the amount payable by Singapore Pools to you in the event that your betting selections with the results as declared by us, which, save as expressly provided in Appendices A1 to A63 below, shall be the amount determined by multiplying the stake by the prevailing odds applicable to the betting selection at the time the bet is placed. For the avoidance of doubt, the prize shall include the stake in respect of that bet, i.e. you will win only the prize, and will not be given a refund of your stake.

(s) "**Second Half**" means the scheduled second 45 minutes of play after the First Half, plus stoppage or added time.

(t) "**Second Half Score**" means the Score of a football match for only the Second Half. For the avoidance of doubt, the Second Half Score shall expressly exclude the First Half Score and the Full Time Score.

(u) "**Score**" means the score counting Valid Goals, unless otherwise specified for a particular bet type set out in Appendices A1 to A63 below.

(v) "**Tournament**" means a specified football competition which comprises various stages, including the semi-finals and finals.

(w) "**Valid Corner**" means a corner kick which is awarded by the referee in the football match and which is taken by the team to which the corner kick was awarded to. Corner kicks awarded but not taken are not considered Valid Corners.

(x) "**Valid Goal**" means a goal scored in a football match other than as a result of a penalty shootout that takes place after the end of Extra Time. For the avoidance of doubt, a penalty, free kick or Own Goal scored within Regulation Time or Extra Time is a Valid Goal.

2. General Terms

2.1 The various bet types available for Football Betting are as set out in Appendices A1 to A63 below.

2.2 For each bet type, we shall, at our sole and absolute discretion, determine the selections available for placing bets on. We are also entitled to adjust said selections as and when we deem it necessary to do so.

2.3 Where a football match is abandoned after it has proceeded beyond Regulation Time (including when the match has proceeded to Extra Time or the execution of penalty shootouts), there shall be no refunds for the bets placed for such football match, and the Full Time Score of such football match shall be used to determine the result.

2.4 Where a football match or Championship is called off (including but not limited to abandonment, postponement, suspension and cancellation) or restructured (including but not limited to changes to the competition rules, format or match-up), the validity of the bets placed depend on the particular bet type made. You may refer to the Appendices below for more information on whether the bets placed in respect of a particular bet type are valid in such an event.

2.5 Notwithstanding any provisions to the contrary in the Appendices below, if any football match or Championship is cancelled or restructured such that the results for the relevant bet types cannot be determined as originally scheduled or contemplated, Singapore Pools shall be entitled to deal with any bet placed in respect of the football match or Championship in such manner as it deems fit at our sole and absolute discretion. You may check the Singapore Pools website for updates in such an event.

2.6 Any player, official or volunteer registered, employed, deployed or appointed by any entity participating in the competitions in Singapore known as the Singapore Premier League and the Singapore Cup (and any successor competitions thereof) is not allowed to place any bet in these competitions or any other competitions which their entity participates in whether in Singapore or elsewhere. In addition, any official, staff or volunteer of the Football Association of Singapore who may

be in a position to influence the outcome of a football match, whether directly or indirectly, including by way of abetting, aiding, instigating or conspiring with others is not allowed to place any bets on that football match.

3. Cash Out

3.1 Cash Out is only available if you place bets through your Remote Betting Account. The option to automatically or partially Cash Out your bet is not available.

3.2 Cash Out may be offered at our sole and absolute discretion at any point in time. We are not obliged to offer Cash Out on any bet type, betting selection or Football Event, and we will not be responsible if Cash Out is not available for any reason or at any time.

3.3 The Cash Out Amount shall be determined by us in our sole and absolute discretion. For the avoidance of doubt, Cash Out Amount is subject to change at any time from the time that you make the Cash Out request until your Cash Out request has been accepted by us.

3.4 We may, in our sole and absolute discretion, at any time, and without offering any explanation:

(a) Amend, suspend, remove or update the Cash Out option offered in respect of any bet type, betting selection or Football Event;

(b) Decline to accept your Cash Out request, including where the Cash Out option is not available for the bet type, betting selection or Football Event that your Cash Out request relates to;

(c) Declare void and reverse the settlement of the Cash Out or otherwise declare a revised Cash Out Amount for any reason, including without limitation, in the event that the settlement of a Cash Out was made pursuant to an error or miscalculation;

(d) Remove all or part of a Cash Out option available to you if we reasonably believes that you are or have been misusing or abusing the Cash Out option; and/or

(e) Withdraw or suspend your eligibility to use the Cash Out option on a temporary or permanent basis.

3.5 Where Cash Out is available before the start of a Football Event and we do not cover or stop covering the Football Event for live betting, then Cash Out will be unavailable once the Football Event starts or when the live betting coverage stops. Cash Out will not be available when the market for the bet type, betting selection or Football Event is suspended. For the avoidance of doubt, there shall be no refunds for your bets placed due to and/or arising out of the unavailability of the Cash Out option for any reason or at any time.

3.6 Once your Cash Out request has been accepted by us, your bet is considered as fully and finally settled by us, and the subsequent result (i.e. the winning selection / outcome) for the relevant bet type as declared by us shall not affect your Cash Out Amount.

3.7 There is a time delay between the time that you submit your Cash Out request and the time of acceptance of your Cash Out request by us. A Cash Out request will only be valid if and when it is accepted by us. Any change in any circumstances relevant to the bet type, betting selection or Football Event in respect of which Cash Out is made available, or in any relevant prices or odds, before the Cash Out request is accepted by us, may result in your Cash Out request being rejected. Where your Cash Out request is rejected by us due to such changes, you may submit a new Cash Out request (if available) at the prevailing prices or odds.

3.8 Where we exercise our right to suspend or remove the Cash Out option or where we decline to accept your Cash Out request or declare void any settled Cash Out transaction, your bet as originally placed on such bet type, betting selection or Football Event in respect of which the Cash Out option is made available will stand, i.e. the status of your original bet placed will not change.

Appendix A1 – 1x2

Bet Type	"1x2" refers to the type of betting where you bet on the outcome of a football match at the end of Regulation Time.
Selections available for betting	• Win by the Home Team based on Full Time Score (i.e. Home Team scores more goals than the Away Team at the end of Regulation Time) • Draw between the Home Team and the Away Team based on Full Time Score (i.e. both teams score the same number of goals or the football match remains goalless at the end of Regulation Time) • Win by the Away Team based on Full Time Score (i.e. Away Team scores more goals than the Home Team at the end of Regulation Time)
Winning selection	You have a winning selection if you have correctly selected the outcome of the football match at the end of Regulation Time.
Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time, the bets for "1x2" on that match shall be void and refunded.

Appendix A2 – Halftime 1x2

Bet Type	"Halftime 1x2" refers to the type of betting where you bet on the outcome of the First Half of a football match.
Selections available for betting	• Win by the Home Team based on First Half Score (i.e. Home Team scores more goals than the Away Team in the First Half) • Draw between the Home Team and the Away Team based on First Half Score (i.e. both teams score the same number of goals or the football match remains goalless in the First Half) • Win by the Away Team based on First Half Score (i.e. Away Team scores more goals than the Home Team in the First Half)
Winning selection	You have a winning selection if you have correctly selected the outcome of the First Half of the football match.
Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) after the completion of the First Half but before the completion of the Second Half, bets for "Halftime 1x2" shall be treated as valid notwithstanding the calling off of the match. However, where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) at any time before the First Half is completed, bets for "Halftime 1x2" shall be void and refunded.

	Illustration: • In the match Portugal vs Russia, the First Half Score is 2-0. The match was abandoned at the 77th minute. Bets for "Halftime 1X2" will be valid and the winning selection for "Halftime 1x2" will be Portugal. • In the match Nigeria vs Ghana, the match was abandoned at 30th minute during the First Half with a score of 0-0. Bets for "Halftime 1x2" will be void and refunded.

Appendix A3 – Full Time Pick the Score (PTS)

<table>
<tr><td>Bet Type</td><td>"Full Time PTS" refers to the type of betting where you bet on the exact score of a football match at the end of Regulation Time.</td></tr>
<tr><td>Selections available for betting</td><td>You will be able to select from a list of possible Full Time Score outcomes, as well as an option known as Any Other Score ("AOS"), which encompasses all scores not within the list of possible Full Time Score outcomes.</td></tr>
<tr><td>Winning selection</td><td>You have a winning selection if your bet is (1) the same as the Full Time Score; or (2) AOS, in the event that the Full Time Score is not in the list of possible Full Time Score outcomes.</td></tr>
<tr><td>Refund of Bets / Special Provisions</td><td>Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of the Regulation Time, the bets for "Full Time PTS" shall be void and refunded unless the result for "Full Time PTS" is already fully determined as at the point the match is being called off.

Illustration 1:
In the match Argentina vs USA, the match was abandoned at the 75th minute with score of 4-4. If the selections listed for "Full Time PTS" are as follows:
<table>
<tr><th>S/N</th><th>Outcome</th><th>Winning Selection</th></tr>
<tr><td>1.</td><td>Home Team wins 1-0</td><td>1-0</td></tr>
<tr><td>2.</td><td>Home Team wins 2-0</td><td>2-0</td></tr>
<tr><td>3.</td><td>Home Team wins 2-1</td><td>2-1</td></tr>
<tr><td>4.</td><td>Home Team wins 3-0</td><td>3-0</td></tr>
<tr><td>5.</td><td>Home Team wins 3-1</td><td>3-1</td></tr>
<tr><td>6.</td><td>Home Team wins 3-2</td><td>3-2</td></tr>
<tr><td>7.</td><td>Home Team wins 4-0</td><td>4-0</td></tr>
<tr><td>8.</td><td>Home Team wins 4-1</td><td>4-1</td></tr>
<tr><td>9.</td><td>Home Team wins 4-2</td><td>4-2</td></tr>
</table>
</td></tr>
</table>

10.	Home Team wins 4-3	4-3
11.	Home Team wins 5-0	5-0
12.	Home Team wins 5-1	5-1
13.	Home Team wins 5-2	5-2
14.	Home Team wins 5-3	5-3
15.	Home Team wins 5-4	5-4
16.	Draw 0-0	0-0
17.	Draw 1-1	1-1
18.	Draw 2-2	2-2
19.	Draw 3-3	3-3
20.	Draw 4-4	4-4
21.	Away Team wins 1-0	0-1
22.	Away Team wins 2-0	0-2
23.	Away Team wins 2-1	1-2
24.	Away Team wins 3-0	0-3
25.	Away Team wins 3-1	1-3
26.	Away Team wins 3-2	2-3
27.	Away Team wins 4-0	0-4
28.	Away Team wins 4-1	1-4
29.	Away Team wins 4-2	2-4
30.	Away Team wins 4-3	3-4
31.	Away Team wins 5-0	0-5
32.	Away Team wins 5-1	1-5
33.	Away Team wins 5-2	2-5
34.	Away Team wins 5-3	3-5
35.	Away Team wins 5-4	4-5
36.	Any other score	AOS

The result of "Full Time PTS" in this case, based on the above listed selections, cannot be determined at the point that the match is called off. This is because if the match had continued, the Full Time Score and hence the winning selection could have been "4-4", "5-4", "4-5" or "AOS". Therefore, bets for "Full Time PTS" in such a match will be void and refunded.

Illustration 2:
In the match New Zealand vs Peru, the match was abandoned at the 80th minute with score of 2-6. If the selections listed for "Full Time PTS" are as follows:

S/N	Outcome	Winning Selection
1.	Home Team wins 1-0	1-0
2.	Home Team wins 2-0	2-0
3.	Home Team wins 2-1	2-1
4.	Home Team wins 3-0	3-0
5.	Home Team wins 3-1	3-1
6.	Home Team wins 3-2	3-2
7.	Home Team wins 4-0	4-0
8.	Home Team wins 4-1	4-1

	9.	Home Team wins 4-2	4-2
	10.	Home Team wins 4-3	4-3
	11.	Home Team wins 5-0	5-0
	12.	Home Team wins 5-1	5-1
	13.	Home Team wins 5-2	5-2
	14.	Home Team wins 5-3	5-3
	15.	Home Team wins 5-4	5-4
	16.	Draw 0-0	0-0
	17.	Draw 1-1	1-1
	18.	Draw 2-2	2-2
	19.	Draw 3-3	3-3
	20.	Draw 4-4	4-4
	21.	Away Team wins 1-0	0-1
	22.	Away Team wins 2-0	0-2
	23.	Away Team wins 2-1	1-2
	24.	Away Team wins 3-0	0-3
	25.	Away Team wins 3-1	1-3
	26.	Away Team wins 3-2	2-3
	27.	Away Team wins 4-0	0-4
	28.	Away Team wins 4-1	1-4
	29.	Away Team wins 4-2	2-4
	30.	Away Team wins 4-3	3-4
	31.	Away Team wins 5-0	0-5
	32.	Away Team wins 5-1	1-5
	33.	Away Team wins 5-2	2-5
	34.	Away Team wins 5-3	3-5
	35.	Away Team wins 5-4	4-5
	36.	Any other score	AOS
	In this case, the score of 2-6 is already beyond the list of possible Full Time Score outcomes. Hence, the result for this “Full Time PTS”, based on the above listed selections, is already fully determined to be "AOS" as at the point the match is called off. Therefore, bets for “Full Time PTS” will be valid and the winning selection is "AOS".		

Appendix A4 - Halftime Pick the Score (PTS)

Bet Type	“Halftime PTS” refers to the type of betting where you bet on the exact score of a football match at the end of the First Half.
Selections available for betting	You will be able to select from a list of possible First Half Score outcomes, as well as an option known as Any Other Score (AOS), which encompasses all scores not within the list of possible Full Time Score outcomes.
Winning	You have a winning selection if your bet is (1) the same as the First Half

<table>
<tr><td>selection</td><td>Score; or (2) AOS, in the event that the First Half Score is not in the list of possible First Half Score outcomes.</td></tr>
<tr><td>Refund of Bets / Special Provisions</td><td>Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of the First Half, the bets for “Halftime PTS” shall be void and refunded unless the result for “Halftime PTS” is already fully determined as at the point the match is being called off.

Illustration 1:
In the match Ukraine vs Russia, the match was abandoned at the 40th minute with score of 2-1. If the selections listed for Halftime PTS is as follows:

<table>
<tr><th>S/N</th><th>Outcome</th><th>Winning Selection</th></tr>
<tr><td>1.</td><td>Home Team wins 1-0</td><td>1-0</td></tr>
<tr><td>2.</td><td>Home Team wins 2-0</td><td>2-0</td></tr>
<tr><td>3.</td><td>Home Team wins 2-1</td><td>2-1</td></tr>
<tr><td>4.</td><td>Draw 0-0</td><td>0-0</td></tr>
<tr><td>5.</td><td>Draw 1-1</td><td>1-1</td></tr>
<tr><td>6.</td><td>Draw 2-2</td><td>2-2</td></tr>
<tr><td>7.</td><td>Away Team wins 1-0</td><td>0-1</td></tr>
<tr><td>8.</td><td>Away Team wins 2-0</td><td>0-2</td></tr>
<tr><td>9.</td><td>Away Team wins 2-1</td><td>1-2</td></tr>
<tr><td>10.</td><td>Any other score</td><td>AOS</td></tr>
</table>

The result of “Halftime PTS” in this case, based on the above listed selections, cannot be determined at the point that the match is called off. This is because if the match had continued, the First Half Score and hence the winning selection could have been “2-1”, “2-2” or “AOS”. Therefore, bets for “Halftime PTS” in such a match will be void and refunded.

Illustration 2:
In the match Japan vs Turkey, the match was abandoned at the 37th minute with score of 3-1. If the selections listed for PTS is as follow:

<table>
<tr><th>S/N</th><th>Outcome</th><th>Winning Selection</th></tr>
<tr><td>1.</td><td>Home Team wins 1-0</td><td>1-0</td></tr>
<tr><td>2.</td><td>Home Team wins 2-0</td><td>2-0</td></tr>
<tr><td>3.</td><td>Home Team wins 2-1</td><td>2-1</td></tr>
<tr><td>4.</td><td>Draw 0-0</td><td>0-0</td></tr>
<tr><td>5.</td><td>Draw 1-1</td><td>1-1</td></tr>
<tr><td>6.</td><td>Draw 2-2</td><td>2-2</td></tr>
<tr><td>7.</td><td>Away Team wins 1-0</td><td>0-1</td></tr>
<tr><td>8.</td><td>Away Team wins 2-0</td><td>0-2</td></tr>
<tr><td>9.</td><td>Away Team wins 2-1</td><td>1-2</td></tr>
<tr><td>10.</td><td>Any other score</td><td>AOS</td></tr>
</table>
</td></tr>
</table>

	In this case, the score of 3-1 is already beyond the list of possible First Half Score outcomes. Hence, the result for this “Halftime PTS”, based on the above listed selections, is already fully determined to be "AOS" as at the point the match is called off. Therefore, bets for “Halftime PTS” will be valid and the winning selection is "AOS".

Appendix A5 – Halftime-Fulltime (HT-FT)

Bet Type	“HT-FT” refers to the type of betting where you bet on the outcome of the First Half of a football match, as well as the outcome of the football match at the end of Regulation Time.
Selections available for betting	• Home Team leads at halftime, and Home Team wins at fulltime (described as either "H-H" or "Home-Home") • Home Team leads at halftime, and draw at fulltime (described as either "H-D" or "Home-Draw") • Home Team leads at halftime, and Away Team wins at fulltime (described as either "H-A" or "Home-Away") • Draw at halftime, and Home Team wins at fulltime (described as either "D-H" or "Draw-Home") • Draw at halftime, and draw at fulltime (described as either "D-D" or "Draw-Draw") • Draw at halftime, and Away Team wins at fulltime (described as either "D-A" or "Draw-Away") • Away Team leads at halftime, and Home Team wins at fulltime (described as either "A-H" or "Away-Home") • Away Team leads at halftime, and draw at fulltime (described as either "A-D" or "Away-Draw") • Away Team leads at halftime, and Away Team wins at fulltime (described as either "A-A" or "Away-Away")
Winning selection	You have a winning selection if you have correctly selected the outcome of the First Half of the football match, as well as the outcome of the match at the end of Regulation Time.
Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time, the bets for “HT-FT” shall be void and refunded.

Appendix A6 – Team to Score 1st Goal

Bet Type	"Team to Score 1st Goal" refers to the type of betting where you bet on which team will score the first Valid Goal of a football match during Regulation Time.
Selections available for betting	• Home Team • Away Team • No Valid Goals scored ("**No 1st Goal**")
Winning selection	You have a winning selection if (1) you have correctly selected the team which scored the first Valid Goal in the football match; **or** (2) in the event that no Valid Goals are scored in the football match, you have selected "No 1st Goal".
Refund of Bets / Special Provisions	• Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) after a Valid Goal is scored, and where Singapore Pools has declared a result for "Team to Score 1st Goal", there shall be no refunds. • However, if there are no Valid Goals scored at the time the match is called off (including but not limited to abandonment, postponement, suspension and cancellation), all bets for "Team to Score 1st Goal" shall be void and refunded.

Appendix A7 - Team to Score Xth Goal

Bet Type	"Team to Score Xth Goal" refers to the type of betting where you bet on which team will score the Xth Valid Goal of a football match during Regulation Time, where X is a whole number starting from 1.
Selections available for betting	• Home Team • Away Team • No Xth goal
Winning selection	You have a winning selection if (1) you correctly selected the team which scored the Xth Valid Goal in the football match during Regulation Time; **or** (2) in the event no Xth Valid Goal was scored in the football match during Regulation Time, you selected "No Xth Goal".
Refund of Bets / Special Provisions	• When a Valid Goal is scored, the bet event for "Team to Score Xth Goal" where "X" corresponds to the prevailing total number of Valid Goals scored shall be closed. A new bet event for "Team to Score Xth Goal" where "X" is greater than the prevailing total number of Valid Goals already scored then, may be opened by Singapore Pools at our sole and absolute discretion.

	Illustration: In a match between Brazil and England, the current score is 0-0. "Team to Score 1st Goal" is opened because the next Valid Goal to be scored will be the 1st Valid Goal of the match. When Brazil scored the 1st Valid Goal of the match at 10th minute to make the score 1-0, "Team to Score 1st Goal" will be closed, but SPPL may open "Team to Score 2nd Goal" because the next Valid Goal to be scored will be the 2nd Valid Goal of the match. • Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time, bets for "Team to Score Xth Goal" shall be void and refunded unless the result is already fully determined as at the point the match is being called off. Where a match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the Xth Valid Goal is scored, bets on "Team to Score Xth Goal" shall be void and refunded. Where a match is called off (including but not limited to abandonment, postponement, suspension and cancellation) after the Xth Valid Goal is scored, bets on "Team to Score Xth Goal" shall be valid. **Illustration:** In the illustration above, if the match is called off at the 15th minute at a score 1-0, bets for "Team to Score 1st Goal" will be valid because the result is already fully determined at the point the match is called off. Bets for "Team to Score 2nd Goal" will be void and refunded because the result is not determined at the point the match is called off.

Appendix A8 – Team to Score Last Goal

Bet Type	"Team to Score Last Goal" refers to the type of betting where you bet on which team will score the last Valid Goal of a football match during Regulation Time.
Selections available for betting	• Home Team • Away Team • No Valid Goals scored ("**No Goal**")
Winning selection	You have a winning selection if (1) you have correctly selected the team which scored the last Valid Goal of a football match; **or** (2) no Valid Goals are scored in the football match and you have selected "No Goal".
Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time, bets for "Team to Score Last" shall be void and refunded.

Appendix A9 – Total Goals

<table>
<tr><td>Bet Type</td><td>“Total Goals” refers to the type of betting where you bet on how many Valid Goals will be scored in total by both teams in a football match during Regulation Time.</td></tr>
<tr><td>Selections available for betting</td><td>• Any number of Valid Goals scored in the football match during Regulation Time up to X (where “X” is a whole number starting from 1 as may be determined by Singapore Pools at our sole and absolute discretion)
• More than X Valid Goals scored in the football match during Regulation Time
• No Valid Goals scored</td></tr>
<tr><td>Winning selection</td><td>You have a winning selection if you have correctly selected the total number of Valid Goals scored by both teams.</td></tr>
<tr><td>Refund of Bets / Special Provisions</td><td>Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time, the bets for “Total Goals” shall be void and refunded, unless the result for “Total Goals” is already fully determined as at the point the match is called off.

Illustration 1:
In the match Argentina vs USA, the match was abandoned at the 75th minute with score of 4-4. If the selections listed for “Total Goals” is as follow:

<table>
<tr><td>0 goal</td><td>1 goal</td><td>2 goals</td><td>3 goals</td><td>4 goals</td><td>5 goals</td><td>6 goals</td><td>7 goals</td><td>8 goals</td><td>9+ goals</td></tr>
</table>

The result of this bet for “Total Goals”, based on the above listed selections, cannot be determined at the point the match is called off. This is because if the match had continued, the winning selection could have been “8 Goals” or “9+ Goals”. Therefore, the bets for “Total Goals” will be void and refunded in this case.

Illustration 2:
In the match New Zealand vs Peru, the match was abandoned at the 80th minute with score of 3-6. If the selections listed for “Total Goals” is as follow:
<table>
<tr><td>0 goal</td><td>1 goal</td><td>2 goals</td><td>3 goals</td><td>4 goals</td><td>5 goals</td><td>6 goals</td><td>7 goals</td><td>8 goals</td><td>9+ goals</td></tr>
</table>

Score 3-6 is already beyond the list of possible “Total Goals” outcomes. The result for “Total Goals”, based on the above listed selections, is already fully determined to be “9+ Goals” as at the point the match is called off. Therefore, bets for “Total Goals” will be valid in this case and the winning selection is “9+ Goals”.</td></tr>
</table>

Appendix A10 – Total Goals Over/Under X

Bet Type	"Total Goals Over/Under X" refers to the type of betting where you bet on whether the total number of Valid Goals scored by both teams in a football match during Regulation Time is greater or smaller than X, where X is a positive decimal number as may be determined by Singapore Pools at our sole and absolute discretion. We may also adjust the value of X as and when we deem it necessary to do so.
Selections available for betting	• Over X • Under X
Winning selection	You have a winning selection if you have correctly selected the total number of Valid Goals scored by both teams as either greater or smaller than X. **Illustration:** When the Full Time Score of a match is 2-1, the total number of Valid Goals is 3. In this case: • Where X = 2.5, the winning selection will be "Over 2.5"; • Where X = 3.5, the winning selection will be "Under 3.5";
Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time, the bets for "Total Goals Over/Under X" shall be void and refunded, unless the result for "Total Goals Over/Under X" is already fully determined as at the point the match is called off. **Illustration:** The match England vs France was abandoned at 65th minute with a score line of 2-1. The result for "Total Goals Over/Under 2.5" is already determined with "Over 2.5" being the winning selection prior to the abandonment. However, bets for "Total Goals Over/Under 3.5" will be void and refunded because the outcome for "Total Goals Over/Under 3.5" is still not determined at the point of abandonment.

Appendix A11 – Total Goals Odd/Even

Bet Type	"Total Goals Odd/Even" refers to the type of betting where you bet on whether the total number of Valid Goals scored by both teams in a football match during Regulation Time is an odd or even number.
Selections available for betting	• Odd • Even

Winning selection	You have a winning selection if you have correctly selected the total number of Valid Goals scored by both teams as either an odd or even number. If the total number of Valid Goals scored is zero, then "Even" is considered the winning selection.
Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time, the bets for "Total Goals Odd/Even" shall be void and refunded.

Appendix A12 – 1/2 Goal

Bet Type	"1/2 Goal" refers to the type of betting where you bet on the outcome of a football match at the end of Regulation Time, taking into account a predetermined Handicap X (where X is a positive or negative decimal number) as may be determined by Singapore Pools at our sole and absolute discretion. We may also adjust the value of X as and when we deem necessary to do so.
Selections available for betting	• Home Team with positive Handicap X (i.e. you are betting that the Home Team will have a higher number of Valid Goals after applying the positive Handicap X to the number of Valid Goals scored by the Home Team based on the Full Time Score). • Home Team with negative Handicap X (i.e. you are betting that the Home Team will have a higher number of Valid Goals after applying the negative Handicap X to the number of Valid Goals scored by the Home Team based on the Full Time Score). • Away Team with positive Handicap X (i.e. you are betting that the Away Team will have a higher number of Valid Goals after applying the positive Handicap X to the number of Valid Goals scored by the Away Team based on the Full Time Score). • Away Team with negative Handicap X (i.e. you are betting that the Away Team will have a higher number of Valid Goals after applying the negative Handicap X to the number of Valid Goals scored by the Away Team based on the Full Time Score).
Winning selection	You have a winning selection if you have correctly selected the team with the higher number of Valid Goals after applying the assigned Handicap(s) to the Full Time Score. **Illustration**: In the match Italy vs France, Italy wins with the Full Time Score at 3-1: • "1/2 goal" where X= -1.5 has the following selections: o Italy (-1.5). This will result in the adjusted Full Time Score being 1.5-1 in favour of Italy. o France (+1.5). This will result in the adjusted Full Time Score

	being 3-2.5 in favour of Italy. Therefore, Italy (-1.5) will be the winning selection. • "1/2 goal" where X= +1.5 has the following selections: o Italy (+1.5): This will result in the adjusted Full Time Score being 4.5-1 in favour of Italy. o France (-1.5). This will result in the adjusted Full Time Score being 3-(-0.5) in favour of Italy. Therefore, Italy (+1.5) will be the winning selection. • "1/2 goal" where X= -2.5 has the following selections: o Italy (-2.5). This will result in the adjusted Full Time Score being 0.5-1 in favour of France. o France (+2.5). This will result in the adjusted Full Time Score being 3-3.5 in favour of France. Therefore, France (+2.5) will be the winning selection. • "1/2 goal" where X= +2.5 has the following selections: o Italy (+2.5). This will result in the adjusted Full Time Score being 5.5-1 in favour of Italy. o France (-2.5). This will result in the adjusted Full Time Score being 3-(-1.5) in favour of Italy. Therefore, Italy (+2.5) will be the winning selection.
Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time, the bets for "1/2 Goal" shall be void and refunded.

Appendix A13 – Handicap 1x2

Bet Type	"Handicap 1x2" refers to the type of betting where you bet on the outcome of a football match at the end of Regulation Time, taking into account a predetermined Handicap X (where X is a positive or negative whole number) as may be determined by Singapore Pools at our sole and absolute discretion. We may also adjust the value of X as and when we deem it necessary to do so.
Selections available for betting	• Home Team with positive Handicap X (i.e. you are betting that the Home Team will have a higher number of Valid Goals after applying the positive Handicap X to the number of Valid Goals scored by the Home Team based on the Full Time Score). • Home Team with negative Handicap X (i.e. you are betting that the Home Team will have a higher number of Valid Goals after applying the negative Handicap X to the number of Valid Goals scored by the Home Team based on the Full Time Score). • Away Team with positive Handicap X (i.e. you are betting that the Away Team will have a higher number of Valid Goals after applying

	the positive Handicap X to the number of Valid Goals scored by the Away Team based on the Full Time Score). • Away Team with negative Handicap X (i.e. you are betting that the Away Team will have a higher number of Valid Goals after applying the negative Handicap X to the number of Valid Goals scored by the Away Team based on the Full Time Score). • Draw with positive Handicap X (Handicap for draw is in relation to the Home Team. You are betting that the Home Team will have the same number of Valid Goals as the Away Team after applying the positive Handicap X to the number of Valid Goals scored by the Home Team based on the Full Time Score). • Draw with negative Handicap X (Handicap for draw is in relation to the Home Team. You are betting that the Home Team will have the same number of Valid Goals as the Away Team after applying the negative Handicap X to the number of Valid Goals scored by the Home Team based on the Full Time Score).
Winning selection	You have a winning selection if (1) you have correctly selected the team with the higher number of Valid Goals after applying the assigned Handicap(s) to the Full Time Score; **or** (2) in the event of a draw, if you have correctly selected the result of the football match as being a draw after applying the assigned Handicap(s) to the Full Time Score. **Illustration**: In the match Italy vs France, Italy wins with the Full Time Score at 3-2: • "Handicap 1x2" where X= -1 has the following selections: o Italy (-1). This will result in the adjusted Full Time Score being 2-2. o France (+1). This will result in the adjusted Full Time Score being 3-3. o Draw (-1). This will result in the adjusted Full Time Score being 2-2 Therefore, Draw (-1) will be the winning selection. • "Handicap 1x2" where X= +1 has the following selections: o Italy (+1). This will result in the adjusted Full Time Score being 4-2 in favour of Italy. o France (-1). This will result in the adjusted Full Time Score being 3-1 in favour of Italy. o Draw (+1). This will result in the adjusted Full Time Score being 4-2 in favour of Italy. Therefore, Italy (+1) will be the winning selection. • "Handicap 1x2" where X= -2 has the following selections: o Italy (-2). This will result in the adjusted Full Time Score being 1-2 in favour of France. o France (+2). This will result in the adjusted Full Time Score being 3-4 in favour of France o Draw (-2). This will result in the adjusted Full Time Score

	being 1-2 in favour of France. Therefore, France (+2) will be the winning selection. • "Handicap 1x2" where X= +2 has the following selections: o Italy (+2). This will result in the adjusted Full Time Score being 5-2 in favour of Italy. o France (-2). This will result in the adjusted Full Time Score being 3-0 in favour of Italy. o Draw (+2). This will result in the adjusted Full Time Score being 5-2 in favour of Italy. Therefore, Italy (+2) will be the winning selection.
Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time, the bets for "Handicap 1x2" shall be void and refunded.

Appendix A14 – 1st Goal Scorer

Bet Type	"1st Goal Scorer" refers to the type of betting where you bet on which player will score the first Valid Goal of a football match during Regulation Time.
Selections available for betting	• Such players from the Home Team or the Away Team as may be selected by Singapore Pools at our sole and absolute discretion (described as the "**Selected Players**"). • Any player from the Home Team or Away Team who is not a Selected Player (described as the "**Player Not Listed**") • No Valid Goal scored (described as "**No Goal**") Note: A selection number will be assigned to each Selected Player by Singapore Pools for identification purposes on the bet slip. For the avoidance of doubt, this selection number may or may not correspond or tally with the number(s) on the jersey(s) worn by the Selected Player during the football match, and Singapore Pools shall not be liable for any errors made by you by reason of any confusion arising thereof.
Winning selection	You have a winning selection if: • In the event that there is at least one Valid Goal scored in the match, you have selected the player who scored the first Valid Goal where such player is a Selected Player, or if such player is not a Selected Player, you have selected "Player Not Listed". • Where no Valid Goal is scored in the football match during Regulation Time, you have selected "No Goal". Note: Own Goals are **not** counted as Valid Goals. For the avoidance of doubt, if the only goal in the football match is an Own Goal, then the winning selection shall be "No Goal".

Refund of Bets / Special Provisions	• Bets on a Selected Player will be refunded if that Selected Player did not come onto the field during Regulation Time in the football match (regardless of whether any Valid Goals were scored at all in the match), or only came onto the field after one or more Valid Goals have been scored.
	• Bets on a Selected Player will not be refunded if that Selected Player had come onto the field before any Valid Goal is scored during Regulation Time in the match, regardless of:
	  ○ whether any Valid Goals were scored at all in the match; and/or
	  ○ whether that Selected Player was sent off, substituted or otherwise left the field, or whether that Selected Player subsequently re-entered the field.
	• Bets on "Player Not Listed" will not be refunded if any player(s) from the Home Team or the Away Team (as the case may be) covered by "Player Not Listed" did not come onto the field during Regulation Time in the football match (regardless of whether any Valid Goals were scored at all in the Match), or came onto the field after one or more Valid Goals have been scored.
	• Bets on "Player Not Listed" will not be refunded if any player(s) from the Home Team or the Away Team (as the case may be) covered by "Player Not Listed" had come onto the field during Regulation Time in the football match, regardless of:
	  ○ whether any Valid Goals were scored at all in the match; and/or
	  ○ whether such player(s) were sent off, substituted or otherwise left the field, or whether such player(s) subsequently re-entered the field; and/or
	  ○ whether such player(s) had come onto the field before or after any Valid Goal is scored.
	• Where the football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time and before the first Valid Goal is scored, the bets for "1st Goal Scorer" shall be void and refunded.

Appendix A15 – Last Goal Scorer

Bet Type	"Last Goal Scorer" refers to the type of betting where you bet on which player will score the last Valid Goal of a football match during Regulation Time.
Selections available for betting	• Such players from the Home Team or the Away Team as may be selected by Singapore Pools at our sole and absolute discretion (described as the "**Selected Players**") • Any player from the Home Team or Away Team who is not a Selected Player (described as the "**Player Not Listed**") • No Valid Goal scored (described as "**No Goal**")

Winning selection	You have a winning selection if: • In the event that there is at least one Valid Goal scored in the match, you have selected the player who scored the last Valid Goal where such player is a Selected Player, or if such player is not a Selected Player, you have selected "Player Not Listed". • Where no Valid Goal is scored in the football match during Regulation Time, you have selected "No Goal". Own Goals are **not** counted as Valid Goals. For the avoidance of doubt, if the only goal in the football match is an Own Goal, then the winning selection shall be "No Goal".
Refund of Bets / Special Provisions	• Bets on a Selected Player will be refunded if that Selected Player did not come onto the field during Regulation Time in the football match (regardless of whether any Valid Goals were scored at all in the match). • Bets on a Selected Player will not be refunded if that Selected Player had come onto the field during Regulation Time in the match, regardless of: o whether any Valid Goals were scored at all in the match; and/or o whether that Selected Player was sent off, substituted or otherwise left the field, or whether that Selected Player subsequently re-entered the field. • Bets on "Player Not Listed" will not be refunded if any player(s) from the Home Team or the Away Team (as the case may be) covered by "Player Not Listed" did not come onto the field during Regulation Time in the football match (regardless of whether any Valid Goals were scored at all in the Match). • Bets on "Player Not Listed" will not be refunded if any player(s) from the Home Team or the Away Team (as the case may be) covered by "Player Not Listed" had come onto the field during Regulation Time in the football match, regardless of: o whether any Valid Goals were scored at all in the match; and/or o whether such player(s) were sent off, substituted or otherwise left the field, or whether such player(s) subsequently re-entered the field; and/or o whether such player(s) had come onto the field before or after any Valid Goal is scored. • Where the football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time, the bets for "Last Goal Scorer" shall be void and refunded.

Appendix A16 – Which Half More Goals

Bet Type	"Which Half More Goals" refers to the type of betting where you bet on whether more goals will be scored during the First Half or the Second Half of a football match.
Selections available for betting	• First Half • Second Half • Both Halves Same
Winning selection	You have a winning selection if you have correctly selected the half period of a football match in which the greater number of Valid Goals is scored. Where an equal number of Valid Goals is scored in both the First Half and the Second Half, or if the total number of Valid Goals scored during Regulation Time is zero, the winning selection shall be "Both Halves Same".
Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time, the bets for "Which Half More Goals" shall be void and refunded, unless the result for "Which Half More Goals" is already fully determined as at the point the match is called off. **Illustration 1:** In the match Spain vs Portugal, the First Half Score was 0-0. The match was abandoned at the 50th minute with score of 0-0. The result of this bet for "Which Half More Goals" cannot be determined at the point the match is abandoned. This is because if the match had continued, the Second Half may have produced the same number of or more goals than the First Half, and hence the winning selection could have been any one of the three possible selections. Therefore, the bets for "Which Half More Goals" will be void and refunded in this case. **Illustration 2:** In the match Scotland vs Denmark, the First Half Score was 0-0. The match was abandoned at the 50th minute with score of 1-0. The result of this bet for "Which Half More Goals" is already fully determined at the point the match is abandoned. This is because at the time of the abandonment, the number of Valid Goals scored in the Second Half is already greater than the number of Valid Goals scored in the First Half. Hence, all bets for "Which Half More Goals" will be valid with the winning selection being "Second Half".

Appendix A17 – Multiples

<table>
<tr><td>Bet Type</td><td>“Multiples” refers to the type of betting where you bet that you will win on multiple bet types across different football matches.</td></tr>
<tr><td>Selections available for betting</td><td>

Double: Combination of 2 selections from the selected bet types (each subject to its own respective rules) across 2 different football matches. Both selections must be correct for the bet to win.
Treble: Combination of 3 selections from the selected bet types (each subject to its own respective rules) across 3 different football matches. All 3 selections must be correct for the bet to win.
4-Fold: Combination of 4 selections from the selected bet types (each subject to its own respective rules) across 4 different football matches. All 4 selections must be correct for the bet to win.

Illustration 1: “Double” bet

For a “Double” bet, you may combine 2 selections from 2 different matches based on the selected bet types. For example:

<table>
<tr><td>Match</td><td>Bet Type</td><td>Selection</td><td>Odds</td></tr>
<tr><td>A</td><td>1x2</td><td>Draw</td><td>3.00</td></tr>
<tr><td>B</td><td>Total Goals Over/Under X</td><td>Under 2.5</td><td>1.90</td></tr>
</table>

In this case, the maximum return based on a stake of S$50 is: S$50 × 3.00 × 1.90 = S$285.

Illustration 2: “Treble” bet

For a “Treble” bet, you may combine 3 selections from 3 different matches based on the selected bet types. For example:

<table>
<tr><td>Match</td><td>Bet Type</td><td>Selection</td><td>Odds</td></tr>
<tr><td>A</td><td>1/2 Goal</td><td>Away Win</td><td>1.75</td></tr>
<tr><td>B</td><td>Total Goals Odd/Even</td><td>Even</td><td>1.82</td></tr>
<tr><td>C</td><td>Total Goals Over/Under X</td><td>Over 2.5</td><td>2.00</td></tr>
</table>

In this case, the maximum return based on a stake of S$5 is: S$5 × 1.75 × 1.82 × 2.00 = S$31.85

Illustration 3: “4-Fold” bet

For a “4-Fold” bet, you may combine 4 selections from 4 different matches based on the selected bet types. For example:
</td></tr>
</table>

Winning selection	The winning selection will be the selection comprising the individual selections, all of which correspond to the respective results of the relevant bet types and events. The prize payout shall be the stake multiplied by the odds of each individual selection.
Refund of Bets / Special Provisions	• A "Multiples" bet cannot comprise two selections from the same football match. • If one or more selections in a "Multiples" bet is refunded, then the odds for that selection(s) shall be set to one. If any one or more of the matches are abandoned, the odds for the affected selection shall be set to one. **Illustration:** <table><tr><th>Match</th><th>Bet Type</th><th>Selection</th><th>Odds</th></tr><tr><td>A</td><td>1x2</td><td>Home Win</td><td>1.50</td></tr><tr><td>B</td><td>1/2 Goal</td><td>Home Win</td><td>1.67</td></tr><tr><td>C</td><td>Total Goals Odd/Even</td><td>Odd</td><td>1.82</td></tr><tr><td>D</td><td>Total Goals Over/Under X</td><td>Over 2.5</td><td>2.20</td></tr></table> In the "4-fold" bet above, assuming Match A was abandoned and Match B was refunded, and you win your bet in Match C and Match D, your prize payout based on a stake of S$20 will be: S$20 × 1 × 1 × 1.82 × 2.20 = S$80.08 • If all of the matches are abandoned or refunded, your stake for your "Multiples" bet will be refunded.

Appendix A18 – Championship Winner

Bet Type	"Championship Winner" refers to the type of betting where you bet on which team will win the Championship.
Selections available for betting	The teams participating in the Championship as selected by Singapore Pools at our sole and absolute discretion.
Winning selection	You have a winning selection if you have correctly selected the winner of the Championship.
Refund of Bets / Special Provisions	• Bets for "Championship Winner" will not be refunded if the team picked by you in your bet selection participates in, but does not complete or finish the Championship for whatsoever reason. • Bets for "Championship Winner" will be refunded if the Championship commences, but the team picked by you in your bet selection does not participate in the Championship at all for whatsoever reason. • Bets for "Championship Winner" will be refunded if the Championship is cancelled, prematurely terminated, declared null and void or reorganised at any time before its completion for whatsoever reason. • For the avoidance of doubt, any subsequent amendments to the points, goal difference or any other attribute of any team(s) made by the organising body of the Championship after Singapore Pools has declared the winning selection for "Championship Winner" shall not affect the declared result. Only amendments to the points, goal difference or any other attribute of team(s) made by the organising body of the Championship before the declaration by Singapore Pools of the winning selection shall count towards the result.

Appendix A19 - How Will Match Be Decided?

Bet Type	"How Will Match Be Decided?" refers to the type of betting where you bet on which stage a football match will be won.
Selections available for betting	The following are the selection of this bet type between Team A and Team B: • Team A to win at the end of Regulation Time (described as "Team A to win at Full Time") • Team B to win at the end of Regulation Time (described as "Team B to win at Full Time") • Team A to win in Extra Time (described as "Team A to win in Extra Time") • Team B to win in Extra Time (described as "Team B to win in Extra Time") • Team A to win on penalty shootouts (described as "Team A to win on

	penalties") • Team B to win on penalty shootouts (described as "Team B to win on penalties")
Winning selection	You have a winning selection if you have correctly selected the outcome of the match and the manner in which such outcome is decided. **Illustration**: In a World Cup semi-final match, Brazil and Argentina drew 0-0 at the end of Regulation Time. Brazil won the match in Extra Time. The winning selection for "How Will Match Be Decided?" is "Brazil to win in Extra Time".
Refund of Bets / Special Provisions	Where the football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the result for "How Will Match Be Decided?" can be fully determined, the bets shall be void and refunded.

Appendix A20 – Who Will Qualify?

Bet Type	"Who Will Qualify?" refers to the type of betting where you bet on the team that qualifies for the next stage of a Tournament.
Selections available for betting	Selections of two teams as may be determined by Singapore Pools at our sole and absolute discretion from teams playing in one or more qualifying matches of the Tournament.
Winning selection	You have a winning selection if you have correctly selected the team that qualifies for the next stage of the Tournament. Note: For the avoidance of doubt, any subsequent amendments to the points, goal difference or any other attribute of any team(s) made by the organising body of the Tournament after Singapore Pools has declared the winning selection for "Who Will Qualify" shall not affect the declared result. Only amendments to the points, goal difference or any other attribute of team(s) made by the organising body of the Tournament before the declaration by Singapore Pools of the winning selection shall count towards the result.

Appendix A21 – Halftime Total Goals Over/Under X

Bet Type	"Halftime Goals Over/Under X" refers to the type of betting where you bet on whether the total number of Valid Goals scored by both teams in a football match in the First Half is greater or smaller than X, where X is a decimal number as may be determined by Singapore Pools at our sole and absolute discretion. We may also adjust the value of X as and when we deem it necessary to do so.
Selections available for betting	• Over X • Under X

Winning selection	You have a winning selection if you have correctly selected whether the total number of Valid Goals scored by both teams in the first half is greater or smaller than X.
	
	Illustration:
	When the First Half Score of a football match is 2-1, where the total number of Valid Goals is 3:
	
	• For "Halftime Total Goals Over/Under 2.5", where X = 2.5:
	  ○ A S$100 bet on "Over 2.5" with odds of 1.80 will win with the payout = S$100 × 1.80 = S$180.
	  ○ A $100 bet on "Under 2.5" with odds of 1.85 will lose with the payout = S$0.

Refund of Bets / Special Provisions	Where the football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of the First Half, bets shall be void and refunded unless the result for "Halftime Total Goals Over/Under X" is already fully determined as at the point the match is called off. **Illustration**: When the football match is abandoned at the 40th minute with the score of 2-1, where the total number of Valid Goals is 3: • For "Halftime Total Goals Over/Under 2.5", where X = 2.5, all bets remain valid as the result was already fully determined when the 3rd goal was scored and before the abandonment of the match. • A S$100 bet on "Over 2.5" with odds of 1.85 will win with the payout = S$100 × 1.85 = S$185. • A $100 bet on "Under 2.5" with odds of 1.80 will lose with the payout = S$0. • For "Halftime Total Goals Over/Under 3.5", where X = 3.5, all bets shall be void and refunded because the result cannot be fully

	determined based on 3 Valid Goals, because there is still a possibility that your bet will be correct by a margin of more than 0.5.

Appendix A22 – Asian Handicap

Bet Type	"Asian Handicap" refers to the type of betting where you bet on the outcome of a football match at the end of Regulation Time, taking into account a Handicap X (where X is a positive or negative number) as may be determined by Singapore Pools at our sole and absolute discretion. You are allowed to place bets after the kickoff of the football match, i.e. in the midst of the football match. We may also adjust the value of X as and when we deem it necessary to do so.
Selections available for betting	• Home Team with positive Handicap X (i.e. you are betting that the Home Team will have a higher number of Valid Goals after applying the positive Handicap X to the number of Valid Goals scored by the Home Team based on the Full Time Score or Asian Handicap Adjusted Full Time Score). • Home Team with negative Handicap X (i.e. you are betting that the Home Team will have a higher number of Valid Goals after applying the negative Handicap X to the number of Valid Goals scored by the Home Team based on the Full Time Score or Asian Handicap Adjusted Full Time Score). • Away Team with positive Handicap X (i.e. you are betting that the Away Team will have a higher number of Valid Goals after applying the positive Handicap X to the number of Valid Goals scored by the Away Team based on the Full Time Score or Asian Handicap Adjusted Full Time Score). • Away Team with negative Handicap X (i.e. you are betting that the Away Team will have a higher number of Valid Goals after applying the negative Handicap X to the number of Valid Goals scored by the Away Team based on the Full Time Score or Asian Handicap Adjusted Full Time Score). **Illustration:** Where X = 1, then the selections available for betting are Home Team +(1), i.e. (+1) and Away Team -(1), i.e. (-1). Where X = -1, then the selections available for betting are Home Team +(-1), i.e. (-1) and Away Team -(-1), i.e. (+1). Note: "**Asian Handicap Adjusted Full Time Score**" means, where a bet is placed after kickoff of a football match for Asian Handicap bet type, the score between the point when the bet is placed and the end of Regulation Time. For example, in a match between Holland and Iceland, if the bet is placed in the 23rd minute of a football match when the score is 1-0, and the Full Time Score is 2-1, the Asian Handicap Adjusted Full Time Score is 1-1.

Winning selection	You have a winning selection if: • Where the bet is placed before kickoff of the match, you have correctly selected the team with the higher number of Valid Goals based on the adjusted Full Time Score after applying the assigned Handicap. • Where the bet is placed after kickoff of the match, you have correctly selected the team with the higher number of Valid Goals after applying the assigned Handicap to the Asian Handicap Adjusted Full Time Score. Note: For Asian Handicaps where X = ± Y.25 or ± Y.75 where Y is a whole number, your winnings will be calculated as follows: • Where after applying the Asian Handicap to the Full Time Score or Asian Handicap Adjusted Full Time Score (as the case may be), your selected team wins by a margin of 0.25, you will be awarded winnings based on half of your stake, while the other half of your stake will be refunded to you in full with no winnings. • Where after applying the Asian Handicap to the Full Time Score or Asian Handicap Adjusted Full Time Score (as the case may be), your selected team loses by a margin of 0.25, you will lose half your stake, while the other half of your stake will be refunded to you in full with no winnings. **Illustration 1**: In the match England (Home Team) vs Brazil (Away Team), England wins with the Full Time Score at 1-0. If the bets are placed before the kickoff of the match, the winning selection will be derived after applying the assigned Handicap(s) to the Full Time Score. For example: • "Asian Handicap" where X = 0 has the following selections: o England (0). This will result in the adjusted Full Time Score being 1-0 in favour of England. o Brazil (0). This will result in the adjusted Full Time Score being 1-0 in favour of England. Therefore, England (0) will be the winning selection. A S$100 bet on "England (0)" with odds of 1.80 will win a payout of S$100 × 1.80 = S$180. • "Asian Handicap" where X = -0.25 has the following selections: o England (-0.25). This will result in the adjusted Full Time Score being 0.75-0 in favour of England. o Brazil (+0.25). This will result in the adjusted Full Time Score being 1-0.25 in favour of England. Therefore, England (-0.25) will be the winning selection. A S$100 bet on "England (-0.25)" with odds of 1.80 will win a payout of S$100 × 1.80 = S$180. • "Asian Handicap" where X= -0.5 has the following selections: o England (-0.5). This will result in the adjusted Full Time

	Score being 0.5-0 in favour of England. ○ Brazil (+0.5). This will result in the adjusted Full Time Score being 1-0.5 in favour of England. Therefore, England (-0.5) will be the winning selection. A S$100 bet on "England (-0.5)" with odds of 1.80 will win a payout of S$100 × 1.80 = S$180. • "Asian Handicap" where X = -0.75 has the following selections: ○ England (-0.75). This will result in the adjusted Full Time Score being 0.25-0 in favour of England. ○ Brazil (+0.75). This will result in the adjusted Full Time Score being 1-0.75 in favour of England. Therefore, England (-0.75) will be the winning selection. A S$100 bet on "England (-0.75)" will win with half the stake (S$50) and have the other half of the stake (S$50) returned. Hence, the payout = S$50 × 1.80 + S$50 = S$140. A S$100 bet on "Brazil (+0.75)" with odds of 1.85 will lose half the stake (S$50) and have the other half of the stake (S$50) returned. Hence, the payout = S$0 + S$50 = S$50. • "Asian Handicap" where X = -1 has the following selections: ○ England (-1). This will result in the adjusted Full Time Score being 0-0. ○ Brazil (+1). This will result in the adjusted Full Time Score being 1-1. Therefore, there is no winning selection. A S$100 bet on "England (-1)" will have the total stake (S$100) returned. A S$100 bet on "Brazil (+1)" will have the total stake (S$100) returned. **Illustration 2**: In the match England (Home Team) vs Brazil (Away Team), England wins with the Full Time Score at 1-0. After England had scored the first goal which resulted in a score of 1-0, the results for bets placed thereafter will be computed / determined based on the Asian Handicap Adjusted Score of 0-0. For example: • "Asian Handicap" where X = 0 at prevailing score of 1-0 has the following selections: ○ England (0). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore 0-0. ○ Brazil (0). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore 0-0. Therefore, there is no winning selection. A S$100 bet on "England (0)" with odds of 1.80 will have total stake (S$100) returned. A S$100 bet on "Brazil (0)" with odds of 1.85 will have total stake (S$100) returned. • "Asian Handicap" where X = -0.25 at prevailing score of 1-0 has the

following selections:

- England (-0.25). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore -0.25-0 in favour of Brazil.
- Brazil (+0.25). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore 0-0.25 in favour of Brazil.

Therefore, Brazil (+0.25) is the winning selection. A S$100 bet on "Brazil (+0.25)" with odds of 1.85 will win with half the stake (S$50) and have the other half of the stake (S$50) returned if the Full Time Score is 1-0. Hence, the payout = S$50 × 1.85 + S$50 = S$142.50.

- "Asian Handicap" where X = -0.5 at prevailing score of 1-0 has the following selections:
  - England (-0.5). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore -0.5-0 in favour of Brazil.
  - Brazil (+0.5). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore 0-0.5 in favour of Brazil.
- Therefore, Brazil (+0.5) is the winning selection. A S$100 bet on "Brazil (+0.5)" with odds of 1.85 will win a payout of $100 × 1.85 = $185 if the Full Time Score is 1-0.

- "Asian Handicap" where X = -0.75 at prevailing score of 1-0 has the following selections:
  - England (-0.75). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore -0.75-0 in favour of Brazil.
  - Brazil (+0.75). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore 0-0.75 in favour of Brazil.
- Therefore, Brazil (+0.75) is the winning selection. A S$100 bet on "Brazil (+0.75)" with odds of 1.85 will win a payout of $100 × 1.85 = $185 if the Full Time Score is 1-0.

Illustration 3:

In another match Spain vs Peru, the Full Time Score is 3-1 in favour of Spain.

After Spain had scored to bring the score to 2-1, the results for bets placed thereafter will be computed / determined based on the Asian Handicap Adjusted Score of 1-0. For example:

- "Asian Handicap" where X = 0 at prevailing score of 2-1 has the following selections:
  - Spain (0). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore 1-0 in favour of Spain.

	○ Peru (-0). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore 1-0 in favour of Spain. Therefore, Spain (0) is the winning selection. A S$100 bet on "Spain (0)" with odds of 1.80 will win a payout of S$100 × 1.80 of S$180 if the Full Time Score is 3-1. • "Asian Handicap" where X = -0.25 at prevailing score of 2-1 has the following selections: ○ Spain (-0.25). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore 0.75-0 in favour of Spain. ○ Peru (+0.25). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore 1-0.25 in favour of Spain. Therefore, Spain (-0.25) is the winning selection. A S$100 bet on "Spain (-0.25)" with odds of 1.80 will win a payout of S$100 × 1.80 of S$180 if the Full Time Score is 3-1. • "Asian Handicap" where X= -0.5 at prevailing score of 2-1 has the following selections: ○ Spain (-0.5). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore 0.5-0 in favour of Spain. ○ Peru (+0.5). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore 1-0.5 in favour of Spain. Therefore, Spain (-0.5) is the winning selection. A S$100 bet on "Spain (-0.5)" with odds of 1.80 will win a payout of S$100 × 1.80 of S$180 if the Full Time Score is 3-1. • "Asian Handicap" where X = -0.75 at prevailing score of 2-1 has the following selections: ○ Spain (-0.75). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore 0.25 - 0 in favour of Spain. ○ Peru (+0.75). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore 1 – 0.75 in favour of Spain. Therefore, Spain (-0.75) is the winning selection. A S$100 bet on "Spain (-0.75)" with win with half the stake (S$50) and have the other half of the stake (S$50) returned if the Full Time Score is 3-1. Hence, the payout = S$50 × 1.80 + S$50 = S$140. A S$100 bet on "Peru (+0.75)" with odds of 1.85 will lose half the stake (S$50) and have the other half of the stake (S$50) returned if the Full Time Score is 3-1. Hence, the payout = S$0 + S$50 = S$50. • "Asian Handicap" where X = -1 at prevailing score of 2-1 has the following selections: ○ Spain (-1). Applying the Handicap to the Asian Handicap

	Adjusted Score, the final adjusted Full Time Score is therefore 0-0. ○ Peru (+1). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted Full Time Score is therefore 1-1. Therefore, there is no winning selection. A S$100 bet on "Spain (-1)" will have the total stake (S$100) returned if the Full Time Score is 3-1. A S$100 bet on "Peru (+1)" will have the total stake (S$100) returned if the Full Time Score is 3-1.
Refund of Bets / Special Provisions	• Bets for "Asian Handicap" are refunded if both teams have the same number of goals or the result of the football match is goalless after applying the assigned Handicap(s), as illustrated above. • Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time, the bets for "Asian Handicap" shall be void and refunded.

Appendix A23 – Top Goal Scorer

Bet Type	"Top Goal Scorer" refers to the type of betting where you bet on the player who will score the highest number of Valid Goals at the end of a Championship.
Selections available for betting	• Such players from the teams participating in the Championship as may be selected by Singapore Pools at our sole and absolute discretion (described as the "**Selected Players**"). • Any player from any team who is not a Selected Player (described as "**Player Not Listed**"). Note: A selection number will be assigned to each Selected Player by Singapore Pools for identification purposes on the bet slip. For the avoidance of doubt, this selection number may or may not correspond or tally with the number(s) on the jersey(s) worn by the Selected Player during the football match, and Singapore Pools shall not be liable for any errors made by you by reason of any confusion arising thereof.
Winning selection	You have a winning selection if (1) you have correctly selected the player who has scored the highest total number of Valid Goals at the end of the Championship; **or** (2) in the event that such player is not a Selected Player, you have selected "Player Not Listed". Note: • Own Goals and goals scored during penalty shoot-outs held to determine the winning team in the event of a tie are **not** counted as Valid Goals. • Goals scored during Extra Time (where applicable) are counted as

<table>
<tr>
<td></td>
<td>
Valid Goals.
• Where there is more than one winning selection, Dead Heat rules in Clause 3.3 of the Football Betting Game Rules shall apply to determine the division of prizes among all winning selections. For the avoidance of doubt, even if there are multiple top goal scorers who are not Selected Players, they will fall under the single winning selection of Player Not Listed.

Illustration:
In the 2010 World Cup, four players - D Villa, D Forlan, T Mueller and W Sneijder had all scored 5 goals each as at the end of the tournament. There was a three-way tie for the winning selection for “Top Goal Scorer” - D Villa, D Forlan and Player Not Listed (T Mueller and W Sneijder), as T Mueller and W Sneijder were not Selected Players. The table below sets out the computation of the Prize based on stakes of $9 each placed by Customers A, B and C on D Villa, D Forlan and Player Not Listed respectively:

Appendix A24 – Team to Win 2nd Half

Bet Type	"Team to Win 2nd Half" refers to the type of betting where you bet on the outcome of the Second Half of a football match, i.e. which team scores the higher number of Valid Goals in the Second Half of a football match only.
Selections available for betting	• Home Team • Away Team • Draw
Winning selection	You have a winning selection if (1) you have correctly selected the team that scores the higher number of Valid Goals during the Second Half of the football match; **or** (2) where both teams score the same number of Valid Goals during the Second Half of the football match, you have selected "Draw". Note: For the avoidance of doubt, goals scored during the First Half shall be disregarded and shall not affect the result for "Team to Win 2nd Half".
Refund of Bets / Special Provisions	Where the football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time, the bets for "Team to Win 2nd Half" shall be void and refunded.

Appendix A25 – Will Both Teams Score

Bet Type	"Will Both Teams Score" refers to the type of betting where you bet on whether or not each team will score at least one Valid Goal in a football match during Regulation Time.
Selections available for betting	• Yes • No
Winning selection	You have a winning selection if you have correctly selected whether or not each team will score at least one Valid Goal in a football match.
Refund of Bets / Special Provisions	Where the football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Regulation Time, the bets for "Will Both Teams Score" shall be void and refunded, unless the result for "Will Both Teams Score" is already fully determined at the point the match is called off. **Illustration 1:** In a match between Japan and England, the match was abandoned at the

	68th minute at a score of 1-1. Bets for "Will Both Teams Score" will be valid with winning selection "Yes". This is because at the point of abandonment, both Japan and England had already scored at least one Valid Goals each. **Illustration 2**: In a match between Australia and Sweden, the match was abandoned at the 81st minute at a score of 1-0. Bets for "Will Both Teams Score" will be void and refunded. This is because at the point of abandonment, only Australia had scored at least one Valid Goal, and if the match had continued, it is possible that Sweden may have scored a Valid Goal as well before the end of the Regulation Time, thus affecting the winning selection for "Will Both Teams Score".

</td></tr>
<tr><td>Winning selection</td><td>You will have a winning selection if you correctly selected the Full Time Score of each football match for at least four out of the five matches in a relevant set for “Combo”.</td></tr>
<tr><td>Stake</td><td>The stake in respect of a bet for “Combo” shall be in multiples of one Singapore dollar for each set of five possible outcomes selected by you, with a minimum stake of one Singapore dollar for each set of five possible outcomes.</td></tr>
<tr><td>Provisions relating to prizes</td><td>

Division I Prize: If you have selected the correct Full Time Scores in five of the five matches comprising the relevant set for “Combo”, you will qualify for a share in the prize money of a Division I Prize.
Division II Prize: If you have selected the correct Full Time Scores in four of the five matches comprising the relevant set for “Combo”, you will qualify for a share in the prize money of a Division II Prize.
There shall be a prize pool which shall be an amount equal to sixty percent of the nett amount of total stakes collected for the relevant set for “Combo”, less the applicable Goods and Services Tax (the “Prize Pool”).
Fifty percent of the Prize Pool shall be for the prize money of a Division I Prize (“Division I Prize Money”) and fifty percent of the Prize Pool shall be for the prize money of a Division II Prize (“Division II Prize Money”).
If there are no winners for the Division I Prize after the completion of the last match in a relevant set of matches for “Combo”, then the Division I Prize Money for this relevant set of matches for “Combo” will be carried forward to the next set of matches for “Combo” and added to the Division I Prize Money of that set of matches for “Combo”. There is no limit to the number of times the Division I Prize Money can be carried forward, subject to any announcement by Singapore Pools to the contrary, including where we announce the discontinuance of bets for “Combo” by a certain final date (see below). Winners of the Division I Prize of the next set of matches for “Combo” shall share equally among themselves the Division I Prize

	Money of that set of matches for "Combo" plus any Division I Prize Money amount(s) carried forward from the previous relevant sets of matches for "Combo". • If there are no winners for the Division II Prize after the completion of the last match in a relevant set of matches for "Combo", then the Division II Prize Money for this relevant set of matches for "Combo" will be carried forward to the next set of matches for "Combo" and added to the Division II Prize Money of that set of matches for "Combo". There is no limit to the number of times the Division II Prize Money can be carried forward. Winners of the Division II Prize of the next set of matches for "Combo" shall share equally among themselves the Division II Prize Money of that relevant set of matches for "Combo" plus any Division II Prize Money amount(s) carried forward from the previous sets of matches for "Combo". • For the avoidance of doubt, if you have correctly selected five outcomes, you will only be deemed to qualify for a share of the Division I Prize Money, but not the Division II Prize Money. In the event of an announcement made by Singapore Pools to amend or discontinue bets for "Combo" by a certain final date, "Combo" shall immediately be discontinued once both Division I Prize and Division II Prize have been won for the same set of matches at any time after the announcement is made. Should there be any amount of the prize money that remains not won at the end of the final date, such amount (if any) shall be paid out by Singapore Pools in such manner as we may determine at our sole and absolute discretion, including through the implementation of mechanisms until the entire relevant Prize Pool is won. The manner in which the prize money shall be paid out shall be notified through the Singapore Pools website.
Refund of Bets / Special Provisions	• If only one of the five matches of the relevant set for "Combo" has been called off (including but not limited to abandonment, postponement, suspension and cancellation) and is not replayed or resumed within 36 hours, Singapore Pools shall deem all possible selection(s) for that match to be a winning outcome for the purposes of determining the result of "Combo" only. • If two or more of the five matches of the relevant set for "Combo" have been called off (including but not limited to abandonment, postponement, suspension and cancellation), bets for "Combo" shall be void and refunded. For the purposes of Clauses 5.2 and 5.3 of the Football Betting Game Rules, the relevant Football Event shall refer to the matches of the relevant set of "Combo" which have been called off, and the relevant refund shall be a refund of your bet on "Combo" in respect of the relevant set of five matches.

Appendix A46 – Exact Goals

<table>
<tr><td>Bet Type</td><td>“Exact Goals” refers to the type of betting where you bet on the total number of Valid Goals scored by both teams in a set of five football matches during Regulation Time.</td></tr>
<tr><td>Selections available for betting</td><td>You will have to make a selection of the total number of Valid Goals scored in each of the five football matches comprising the relevant set for “Exact Goals”. In each football match, there are ten possible outcomes for the total number of Valid Goals scored in each match which you may select, which are set out below. In other words, each selection for “Exact Goals” that you make will have to comprise five separate outcomes, one for each football match.
<table>
<tr><th>Description</th><th>Outcome</th></tr>
<tr><td>0 Goals</td><td>0</td></tr>
<tr><td>1 Goal</td><td>1</td></tr>
<tr><td>2 Goals</td><td>2</td></tr>
<tr><td>3 Goals</td><td>3</td></tr>

<tr><td>Winning selection</td><td>You have a winning selection if you have correctly selected the total number of Valid Goals scored in each football match for all of the five matches in a relevant set for “Exact Goals”.</td></tr>
<tr><td>Stake</td><td>The stake in respect of a bet for “Exact Goals” shall be in multiples of one Singapore dollar for each set of five possible outcomes selected by you, with a minimum stake of one Singapore dollar for each set of five possible outcomes.</td></tr>
<tr><td>Provisions relating to prizes</td><td>• There shall be a prize pool which shall be an amount equal to sixty percent of the nett amount of total stakes collected for the relevant set for “Exact Goals”, less the applicable Goods and Services Tax (the “Prize Pool”).
• If you have selected the correct number of Valid Goals scored in all of the matches in the relevant set of “Exact Goals”, which correspond to the result for “Exact Goals” as declared by Singapore Pools, you will qualify for a share in the Prize Pool.</td></tr>
</table>

	• If there are no winners for the Prize Pool after the completion of the last match in each relevant set of matches for "Exact Goals", then the Prize Pool shall be carried forward to the next set of matches for "Exact Goals". Winners for each set of matches for "Exact Goals" shall share equally among themselves the Prize Pool arising out of that relevant set of matches for "Exact Goals" plus any amount(s) carried forward from the previous relevant sets of matches for "Exact Goals". • In the event of an announcement made by Singapore Pools to amend or discontinue bets for "Exact Goals" by a certain final date, "Exact Goals" shall immediately be discontinued once there is at least one winner for the Prize Pool (including any amount carried forward) after the announcement is made. Should there be no winner after the final date, the remaining prize money for "Exact Goals" shall be paid out by Singapore Pools in such manner as we may determine at our sole and absolute discretion, including through the implementation of mechanisms such as until the entire Prize Pool is won. The manner in which the prize money shall be paid out shall be notified through the Singapore Pools website.
Refund of Bets / Special Provisions	• If only one of the five matches of the relevant set for "Exact Goals" has been called off (including but not limited to abandonment, postponement, suspension and cancellation) and is not replayed or resumed within 36 hours, Singapore Pools shall deem all possible selection(s) for that match to be a winning outcome for the purposes of determining the result of "Exact Goals" only. • If two or more of the five matches of the relevant set for "Exact Goals" have been called off (including but not limited to abandonment, postponement, suspension and cancellation), bets for "Exact Goals" shall be void and refunded. For the purposes of Clause 5.2 and 5.3 of the Football Betting Game Rules, the relevant Football Event shall refer to the matches of the relevant set of "Exact Goals" which have been called off, and the relevant refund shall be a refund of your bet on "Exact Goals" in respect of the relevant set of five matches.

Appendix A47 – Half Time Asian Handicap

Bet Type	"Half Time Asian Handicap" refers to the type of betting where you bet on the First Half Score of a football match, after taking into account a Handicap X (where X is a positive or negative number) determined by Singapore Pools at our sole and absolute discretion. You are allowed to place bets after the kickoff of the football match, i.e. in the midst of the football match. We may also adjust the value of X as and when we deem it necessary to do so.
Selections available for	• Home Team with positive Handicap X (i.e. you are betting that the Home Team will have a higher number of Valid Goals after applying

betting	the positive Handicap X to the number of Valid Goals scored by the Home Team based on the First Half Score or Half Time Asian Handicap Adjusted First Half Score). • Home Team with negative Handicap X (i.e. you are betting that the Home Team will have a higher number of Valid Goals after applying the negative Handicap X to the number of Valid Goals scored by the Home Team based on the First Half Score or Half Time Asian Handicap Adjusted First Half Score). • Away Team with positive Handicap X (i.e. you are betting that the Away Team will have a higher number of Valid Goals after applying the positive Handicap X to the number of Valid Goals scored by the Away Team based on the First Half Score or Half Time Asian Handicap Adjusted First Half Score) • Away Team with negative Handicap X (i.e. you are betting that the Away Team will have a higher number of Valid Goals after applying the negative Handicap X to the number of Valid Goals scored by the Away Team based on the First Half Score or Half Time Asian Handicap Adjusted First Half Score). **Illustration:** Where X = 1, then the selections available for betting are Home Team +(1), i.e. (+1) and Away Team -(1), i.e. (-1). Where X = -1, then the selections available for betting are Home Team +(-1), i.e. (-1) and Away Team -(-1), i.e. (+1). Note: "**Half Time Asian Handicap Adjusted First Half Score**" means, where a bet is placed after kickoff of a football match for Half Time Asian Handicap bet type, the score between the point when the bet is placed and the end of the First Half. For example, in a match between Holland and Iceland, if the bet is placed in the 23rd minute of a football match when the score is 1-0, and the First Half Score is 2-1, the Half Time Asian Handicap Adjusted First Half Score is 1-1.
Winning selection	You have a winning selection if: • Where the bet is placed before kickoff of the match, you have correctly selected the team with the higher number of Valid Goals based on the adjusted First Half Score after applying the assigned Handicap. • Where the bet is placed after kickoff of the match, you have correctly selected the team with the higher number of Valid Goals after applying the assigned Handicap to the Half Time Asian Handicap Adjusted First Half Score. Note: For Half Time Asian Handicaps where X = ± Y.25 or ± Y.75 where Y is a whole number, your winnings will be calculated as follows: • Where after applying the Half Time Asian Handicap to the First Half Score or Half Time Asian Handicap Adjusted First Half Score (as the case may be), your selected team wins by a margin of 0.25, you will be awarded winnings based on half of your stake, while the other half

	of your stake will be refunded to you in full with no winnings. • Where after applying the Half Time Asian Handicap to the First Half Score or Half Time Asian Handicap Adjusted First Half Score (as the case may be), your selected team loses by a margin of 0.25, you will lose half your stake, while the other half of your stake will be refunded to you in full with no winnings. **Illustration 1**: In the match England (Home Team) vs Brazil (Away Team), England wins the First Half with the First Half Score at 1-0. If the bets are placed before the kickoff of the match, the winning selection will be derived after applying the assigned Handicap(s) to the First Half Score. For example: • "Half Time Asian Handicap" where X = 0 has the following selections: o England (0). This will result in the adjusted First Half Score being 1-0 in favour of England. o Brazil (0). This will result in the adjusted First Half Score being 1-0 in favour of England. Therefore, England (0) will be the winning selection. A S$100 bet on "England (0)" with odds of 1.80 will win a payout of S$100 × 1.80 = S$180. • "Half Time Asian Handicap" where X = -0.25 has the following selections: o England (-0.25). This will result in the adjusted First Half Score being 0.75-0 in favour of England. o Brazil (+0.25). This will result in the adjusted First Half Score being 1-0.25 in favour of England. Therefore, England (-0.25) will be the winning selection. A S$100 bet on "England (-0.25)" with odds of 1.80 will win a payout of S$100 × 1.80 = S$180. • "Half Time Asian Handicap" where X= -0.5 has the following selections: o England (-0.5). This will result in the adjusted First Half Score being 0.5-0 in favour of England. o Brazil (+0.5). This will result in the adjusted First Half Score being 1-0.5 in favour of England. Therefore, England (-0.5) will be the winning selection. A S$100 bet on "England (-0.5)" with odds of 1.80 will win a payout of S$100 × 1.80 = S$180. • "Half Time Asian Handicap" where X = -0.75 has the following selections: o England (-0.75). This will result in the adjusted First Half Score being 0.25-0 in favour of England. o Brazil (+0.75). This will result in the adjusted First Half Score being 1-0.75 in favour of England.

	Therefore, England (-0.75) will be the winning selection. A S$100 bet on "England (-0.75)" will win with half the stake (S$50) and have the other half of the stake (S$50) returned. Hence, the payout = S$50 × 1.80 + S$50 = S$140.
	A S$100 bet on "Brazil (+0.75)" with odds of 1.85 will lose half the stake (S$50) and have the other half of the stake (S$50) returned. Hence, the payout = S$0 + S$50 = S$50.
	
	• "Half Time Asian Handicap" where X = -1 has the following selections:
	  ○ England (-1). This will result in the adjusted First Half Score being 0-0.
	  ○ Brazil (+1). This will result in the adjusted First Half Score being 1-1.
	Therefore, there is no winning selection. A S$100 bet on "England (-1)" will have the total stake (S$100) returned. A S$100 bet on "Brazil (+1)" will have the total stake (S$100) returned.
	
	Illustration 2:
	In the match England (Home Team) vs Brazil (Away Team), England wins the First Half with the First Half Score at 1-0. After England had scored the first goal which resulted in a score of 1-0, the results for bets placed thereafter will be computed / determined based on the Half Time Asian Handicap Adjusted First Half Score of 0-0. For example:
	
	• "Half Time Asian Handicap" where X = 0 at prevailing score of 1-0 has the following selections:
	  ○ England (0). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted First Half Score is therefore 0-0.
	  ○ Brazil (0). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted First Half Score is therefore 0-0.
	Therefore, there is no winning selection. A S$100 bet on "England (0)" with odds of 1.80 will have total stake (S$100) returned. A S$100 bet on "Brazil (0)" with odds of 1.85 will have total stake (S$100) returned.
	
	• "Half Time Asian Handicap" where X = -0.25 at prevailing score of 1-0 has the following selections:
	  ○ England (-0.25). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted First Half Score is therefore -0.25-0 in favour of Brazil.
	  ○ Brazil (+0.25). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted First Half Score is therefore 0-0.25 in favour of Brazil.
	Therefore, Brazil (+0.25) is the winning selection. A S$100 bet on "Brazil (+0.25)" with odds of 1.85 will win with half the stake (S$50) and have the other half of the stake (S$50) returned if the First Half Score is 1-0. Hence, the payout = S$50 × 1.85 + S$50 = S$142.50.

A S$100 bet on “England (-0.25)" with odds of 1.80 will lose half the stake (S$50) and have the other half of the stake (S$50) returned. Hence, the payout = S$0 + S$50 = S$50.

- “Half Time Asian Handicap” where X = -0.5 at prevailing score of 1-0 has the following selections:
  - England (-0.5). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted First Half Score is therefore -0.5-0 in favour of Brazil.
  - Brazil (+0.5). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted First Half Score is therefore 0-0.5 in favour of Brazil.

  Therefore, Brazil (+0.5) is the winning selection. A S$100 bet on “Brazil (+0.5)" with odds of 1.85 will win a payout of $100 × 1.85 = $185 if the First Half Score is 1-0.

- “Half Time Asian Handicap” where X = -0.75 at prevailing score of 1-0 has the following selections:
  - England (-0.75). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted First Half Score is therefore -0.75-0 in favour of Brazil.
  - Brazil (+0.75). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted First Half Score is therefore 0-0.75 in favour of Brazil.

  Therefore, Brazil (+0.75) is the winning selection. A S$100 bet on “Brazil (+0.75)" with odds of 1.85 will win a payout of $100 × 1.85 = $185 if the First Half Score is 1-0.

Illustration 3:
In another match Spain vs Peru, the First Half Score is 2-0 in favour of Spain.

After Spain had scored the first goal which resulted in a score of 1-0, the results for bets placed thereafter will be computed / determined based on the Half Time Asian Handicap Adjusted First Half Score of 1-0. For example:

- "Half Time Asian Handicap" where X = 0 at prevailing score of 1-0 has the following selections:
  - Spain (0). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted First Half Score is therefore 1-0 in favour of Spain.
  - Peru (0). Applying the Handicap to the Asian Handicap Adjusted Score, the final adjusted First Half Score is therefore 1-0 in favour of Spain.
- Therefore, Spain (+0) is the winning selection. A S$100 bet on "Spain (0)" with odds of 1.80 will win a payout of S$100 × 1.80 of S$180 if the First Half Score is 2-0.

- “Half Time Asian Handicap" where X = -0.25 at prevailing score of

	1-0 has the following selections: ○ Spain (-0.25). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted First Half Score is therefore 0.75-0 in favour of Spain. ○ Peru (+0.25). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final First Half Score is therefore 1-0.25 in favour of Spain. Therefore, Spain (-0.25) is the winning selection. A S$100 bet on "Spain (-0.25)" with odds of 1.80 will win a payout of S$100 × 1.80 of S$180 if the First Half Score is 2-0. • "Half Time Asian Handicap" where X= -0.5 at prevailing score of 1-0 has the following selections: ○ Spain (-0.5). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted First Half Score is therefore 0.5-0 in favour of Spain. ○ Peru (+0.5). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted First Half Score is therefore 1-0.5 in favour of Spain. Therefore, Spain (-0.5) is the winning selection. A S$100 bet on "Spain (-0.5)" with odds of 1.80 will win a payout of S$100 × 1.80 of S$180 if the First Half Score is 2-0. • "Half Time Asian Handicap" where X = -0.75 at prevailing score of 1-0 has the following selections: ○ Spain (-0.75). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted Half Time Score is therefore 0.25-0 in favour of Spain. ○ Peru (+0.75). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted Half Time Score is therefore 1-0.75 in favour of Spain. Therefore, Spain (-0.75) is the winning selection. A S$100 bet on "Spain (-0.75)" with win with half the stake (S$50) and have the other half of the stake (S$50) returned if the First Half Score is 2-0. Hence, the payout = S$50 × 1.80 + S$50 = S$140. A S$100 bet on "Peru (+0.75)" with odds of 1.85 will lose half the stake (S$50) and have the other half of the stake (S$50) returned if the First Half Score is 2-0. Hence, the payout = S$0 + S$50 = S$50. • Handicap" where X = -1 at prevailing score of 1-0 has the following selections: ○ Spain (-1). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted First Half Score is therefore 0-0. ○ Peru (+1). Applying the Handicap to the Half Time Asian Handicap Adjusted First Half Score, the final adjusted First Half Score is therefore 1-1. Therefore, there is no winning selection. A S$100 bet on "Spain (-1)" will have the total stake (S$100) returned if the First Half Score is 2-0. A S$100 bet on "Peru (+1)" will have the total stake (S$100)

	returned if the First Half Score is 2-0.
Refund of Bets / Special Provisions	• Bets for "Half Time Asian Handicap" are refunded if both teams have the same number of goals or the result of the football match is goalless after applying the assigned Handicap(s), as illustrated above. • Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of the First Half, the bets for "Half Time Asian Handicap" shall be void and refunded.

Appendix A48 – Half Time Total Goals Odd/Even

Bet Type	"Half Time Total Goals Odd/Even" refers to the type of betting where you bet on whether the total number of Valid Goals scored by both teams in a football match as at the end of the First Half is an odd or even number.
Selections available for betting	• Odd • Even
Winning selection	You have a winning selection if you have correctly selected whether the total number of Valid Goals scored by both teams as at the end of the First Half is an odd or even number. If the total number of Valid Goals scored at the end of the First Half is zero, then "even" is considered the winning selection.
Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of the First Half, the bets for "Half Time Total Goals Odd/Even" shall be void and refunded.

Appendix A49 – Half Time 1/2 Goal

Bet Type	"Half Time 1/2 Goal" refers to the type of betting where you bet on the outcome of a football match as at the end of the First Half, taking into account a predetermined Handicap X (where X is a positive or negative decimal number) which is determined by Singapore Pools at our sole and absolute discretion. We may also adjust the value of X as and when we deem it necessary to do so.
Selections available for betting	• Home Team with positive Handicap X (i.e. you are betting that the Home Team will have a higher number of Valid Goals after applying the positive Handicap X to the number of Valid Goals scored by the Home Team based on the First Half Score). • Home Team with negative Handicap X (i.e. you are betting that the

	Home Team will have a higher number of Valid Goals after applying the negative Handicap X to the number of Valid Goals scored by the Home Team based on the First Half Score) • Away Team with positive Handicap X (i.e. you are betting that the Away Team will have a higher number of Valid Goals after applying the positive Handicap X to the number of Valid Goals scored by the Away Team based on the First Half Score) • Away Team with negative Handicap X (i.e. you are betting that the Away Team will have a higher number of Valid Goals after applying the negative Handicap X to the number of Valid Goals scored by the Away Team based on the First Half Score).
Winning selection	You have a winning selection if you have correctly selected the team with the higher number of Valid Goals as at the end of the First Half after applying the assigned Handicap(s) to the First Half Score. **Illustration**: In the match Italy vs France, Italy leads by a score of 3-1 at the end of the First Half: • "Half Time 1/2 goal" where X= -1.5 has the following selections: o Italy (-1.5). This will result in the adjusted First Half Score being 1.5-1 in favour of Italy. o France (+1.5). This will result in the adjusted First Half Score being 3-2.5 in favour of Italy. Therefore, Italy (-1.5) will be the winning selection. • "Half Time 1/2 goal" where X= +1.5 has the following selections: o Italy (+1.5): This will result in the adjusted First Half Score being 4.5-1 in favour of Italy. o France (-1.5). This will result in the adjusted First Half Score being 3-(-0.5) in favour of Italy. Therefore, Italy (+1.5) will be the winning selection. • "Half Time 1/2 goal" where X= -2.5 has the following selections: o Italy (-2.5). This will result in the adjusted First Half Score being 0.5-1 in favour of France. o France (+2.5). This will result in the adjusted First Half Score being 3-3.5 in favour of France. Therefore, France (+2.5) will be the winning selection. • "1/2 goal" where X= +2.5 has the following selections: o Italy (+2.5). This will result in the adjusted First Half Score being 5.5-1 in favour of Italy. o France (-2.5). This will result in the adjusted First Half Score being 3-(-1.5) in favour of Italy. Therefore, Italy (+2.5) will be the winning selection.
Refund of Bets / Special	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of the First Half, the bets for "Half Time 1/2 Goal" shall be void and

Provisions	refunded.

Appendix A50 – Half Time Total Goals

Bet Type	"Half Time Total Goals" refers to the type of betting where you bet on how many Valid Goals will be scored in total by both teams as at the end of the First Half of a football match.
Selections available for betting	• Any number of Valid Goals scored in the football match during the First Half up to X (where "X" is a whole number starting from 1 as may be determined by Singapore Pools at our sole and absolute discretion) • More than X Valid Goals scored in the football match during the First Half • No Valid Goals scored
Winning selection	You have a winning selection if you have correctly selected the total number of Valid Goals scored by both teams as at the end of the First Half.
Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of the First Half, the bets for "Half Time Total Goals" shall be void and refunded, unless the result for "Half Time Total Goals" is already fully determined as at the point the match is called off. **Illustration 1:** In the match Argentina vs USA, the match was abandoned at the 23th minute with score of 1-1. If the selections listed for "Half Time Total Goals" are as follows: 0 goal | 1 goal | 2 goals | 3+ goals The result of this bet for "Half Time Total Goals", based on the above listed selections, cannot be determined at the point the match is called off. This is because if the match had continued, the winning selection could have been "2 Goals" or "3+ Goals". Therefore, the bets for "Total Goals" will be void and refunded in this case. **Illustration 2:** In the match New Zealand vs Peru, the match was abandoned at the 39th minute with score of 2-1. If the selections listed for Half Time Total Goals are as follows: 0 goal | 1 goal | 2 goals | 3+ goals

	Score 2-1 is already beyond the list of possible "Half Time Total Goals" outcomes. The result for "Half Time Total Goals", based on the above listed selections, is already fully determined to be "3+ Goals" as at the point the match is called off. Therefore, bets for "Half Time Total Goals" will be valid in this case and the winning selection is "3+ Goals".

Appendix A51 – Half Time Team to Score 1st Goal

Bet Type	"Half Time Team to Score 1st Goal" refers to the type of betting where you bet on which team will score the first Valid Goal of the First Half of a football match.
Selections available for betting	• Home Team • Away Team • No Valid Goals scored ("**No 1st Goal**")
Winning selection	You have a winning selection if (1) you have correctly selected the team which scored the first Valid Goal of the First Half of a football match; **or** (2) in the event that no Valid Goal is scored in the First Half of the football match, you have selected "No 1st Goal".
Refund of Bets / Special Provisions	• Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) in the First Half after a Valid Goal is scored, and where Singapore Pools has declared a result for "Half Time Team to Score 1st Goal", there shall be no refunds. • However, if no Valid Goal is scored by the time the match is called off in the First Half, the bets for "Half Time Team to Score 1st Goal" shall be void and refunded.

Appendix A52 – Half Time Team to Score Xth Goal

Bet Type	"Half Time Team to Score Xth Goal" refers to the type of betting where you bet on which team will score the Xth Valid Goal of the First Half of a football match, where X is a whole number starting from 1.
Selections available for betting	• Home Team • Away Team • No Xth goal
Winning selection	You have a winning selection if (1) you correctly selected the team which scored the Xth Valid Goal of the First Half of a football match; **or** (2) in the event no Xth Valid Goal was scored in the First Half of the football match, you have selected "No Xth Goal".

Refund of Bets / Special Provisions	• When a Valid Goal is scored, the bet event for "Half Time Team to Score Xth Goal" where "X" corresponds to the prevailing total number of Valid Goals scored shall be closed. A new bet event for "Half Time Team to Score Xth Goal" where "X" is greater than the prevailing total number of Valid Goals already scored then, may be opened by Singapore Pools at our sole and absolute discretion. **Illustration:** In a match between Brazil and England, the current score in the First Half is 0-0. "Half Time Team to Score 1st Goal" is opened because the next Valid Goal to be scored will be the 1st Valid Goal of the First Half. When Brazil scored the 1st Valid Goal of the match at 10th minute to make the score 1-0, "Half Time Team to Score 1st Goal" will be closed, but SPPL may open "Half Time Team to Score 2nd Goal" because the next Valid Goal to be scored will be the 2nd Valid Goal of the First Half. • Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of the First Half, bets for "Half Time Team to Score Xth Goal" shall be void and refunded unless the result is already fully determined as at the point the match is being called off. For the avoidance of doubt, where a match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of the First Half and before the Xth Valid Goal is scored, bets on "Half Time Team to Score Xth Goal" shall be void and refunded. Where a match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of the First Half but after the Xth Valid Goal is scored, bets on "Half Time Team to Score Xth Goal" shall be valid. **Illustration:** In the illustration above, if the match is called off at the 15th minute at a score 1-0, bets for "Half Time Team to Score 1st Goal" will be valid because the result is already fully determined at the point the match is called off. Bets for "Half Time Team to Score 2nd Goal" will be void and refunded because the result is not determined at the point the match is called off.

Appendix A53 – Half Time - Will Both Teams Score

Bet Type	"Half Time - Will Both Teams Score" refers to the type of betting where you bet on whether each team will score at least one Valid Goal during the First Half of a football match.
Selections available for betting	• Yes • No
Winning selection	You have a winning selection if you have correctly selected whether each team will score at least one Valid Goal during the First Half of a football match or not.
Refund of Bets / Special Provisions	Where the football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of the First Half, the bets for "Half Time - Will Both Teams Score" shall be void and refunded, unless the result for "Half Time - Will Both Teams Score" is already fully determined at the point the match is called off. **Illustration 1:** In a match between Japan and England, the match was abandoned at the 35th minute at a score of 1-1. Bets for "Half Time - Will Both Teams Score" will be valid with winning selection "Yes". This is because at the point of abandonment, both Japan and England had already scored at least one Valid Goal each. **Illustration 2**: In a match between Australia and Sweden, the match was abandoned at the 35th minute at a score of 1-0. Bets for "Half Time - Will Both Teams Score" will be void and refunded. This is because at the point of abandonment, only Australia had scored at least one Valid Goal, and if the match had continued, it is possible that Sweden may have scored a Valid Goal as well before the end of the First Half, thus affecting the winning selection for "Half Time - Will Both Teams Score".

Appendix A54 – Extra Time 1x2

Bet Type	"Extra Time 1x2" refers to the type of betting where you bet on the outcome of a football match as at the end of Extra Time.
Selections available for betting	• Win by the Home Team based on Extra Time Score • Win by the Away Team based on Extra Time Score • Draw between the Home Team and the Away Team based on Extra Time Score
Winning selection	You have a winning selection if you have correctly selected the outcome of football match as at the end of Extra Time.

Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Extra Time, bets for "Extra Time 1x2" shall be void and refunded.

Appendix A55 – Extra Time Total Goals Over/Under X

Bet Type	"Extra Time Total Goals Over/Under X" refers to the type of betting where you bet on whether the total number of goals (including Own Goals) scored by both teams in a football match as during Extra Time, is greater or smaller than X, where X is a positive decimal number determined by Singapore Pools at our sole and absolute discretion. We may also adjust the value of X as and when we deem it necessary to do so.
Selections available for betting	• Over X • Under X
Winning selection	You will have a winning selection if you correctly selected whether the total number of goals (including Own Goals) scored by both teams during Extra Time is greater or smaller than X. **Illustration:** When the Extra Time Score of a match is 2-1, the total number of goals is 3. In this case: • Where X = 2.5, the winning selection will be "Over 2.5"; • Where X = 3.5, the winning selection will be "Under 3.5";
Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Extra Time, bets for "Extra Time Total Goals Over/Under X" shall be void and refunded, unless the result for "Extra Time Total Goals Over/Under X" is already fully determined as at the point the match is called off. **Illustration:** The match England vs France was abandoned at 100th minute with an Extra Time Score of 1-0. The result for "Extra Time Total Goals Over/Under 0.5" is already determined with "Over 0.5" being the winning selection prior to the abandonment. However, bets for "Total Goals Over/Under 1.5" will be void and refunded because the outcome for "Total Goals Over/Under 1.5" is still not determined at the point of abandonment.

Appendix A56 – Extra Time Pick the Score (PTS)

<table>
<tr><td>Bet Type</td><td>“Extra Time PTS” refers to the type of betting where you bet on the exact Extra Time Score of a football match.</td></tr>
<tr><td>Selections available for betting</td><td>You will be able to select from a list of possible Extra Time Score outcomes, as well as an option known as Any Other Score (“AOS”), which encompasses all scores not within the list of possible Extra Time Score outcomes.</td></tr>
<tr><td>Winning selection</td><td>You have a winning selection if your bet is (1) the same as the Extra Time Score; or (2) AOS, in the event that the Extra Time Score is not in the list of possible Extra Time Score outcomes.</td></tr>
<tr><td>Refund of Bets / Special Provisions</td><td>Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of the Extra Time, the bets for “Extra Time PTS” shall be void and refunded unless the result for “Extra Time PTS” is already fully determined as at the point the match is being called off.

Illustration 1:

In the match Ukraine vs Russia, the match was abandoned at the 95th minute with score of 1-0. If the selections listed for “Extra Time PTS” are as follows:

<table>
<tr><th>S/N</th><th>Score during Extra Time</th><th>Winning Selection</th></tr>
<tr><td>1.</td><td>Home Team wins 1-0</td><td>1-0</td></tr>
<tr><td>2.</td><td>Home Team wins 2-0</td><td>2-0</td></tr>
<tr><td>3.</td><td>Home Team wins 2-1</td><td>2-1</td></tr>
<tr><td>4.</td><td>Draw 0-0</td><td>0-0</td></tr>
<tr><td>5.</td><td>Draw 1-1</td><td>1-1</td></tr>
<tr><td>6.</td><td>Draw 2-2</td><td>2-2</td></tr>
<tr><td>7.</td><td>Away Team wins 1-0</td><td>0-1</td></tr>
<tr><td>8.</td><td>Away Team wins 2-0</td><td>0-2</td></tr>
<tr><td>9.</td><td>Away Team wins 2-1</td><td>1-2</td></tr>
<tr><td>10.</td><td>Any other score</td><td>AOS</td></tr>
</table>

The result of “Extra Time PTS” in this case, based on the above listed selections, cannot be determined at the point that the match is called off. This is because if the match had continued, the Extra Time Score and hence the winning selection could have been "1-1", "2-1" or "AOS". Therefore, bets for “Extra Time PTS” in such a match will be void and refunded.

Illustration 2:

In the match Japan vs Turkey, the match was abandoned at the 98th minute with score of 3-1. If the selections listed for “Extra Time PTS” are as follows:</td></tr>
</table>

S/N	Score during Extra Time	Winning Selection
1.	Home Team wins 1-0	1-0
2.	Home Team wins 2-0	2-0
3.	Home Team wins 2-1	2-1
4.	Draw 0-0	0-0
5.	Draw 1-1	1-1
6.	Draw 2-2	2-2
7.	Away Team wins 1-0	0-1
8.	Away Team wins 2-0	0-2
9.	Away Team wins 2-1	1-2
10.	Any other score	AOS

In this case, the score of 3-1 is already beyond the list of possible Extra Time Score outcomes. Hence, the result for this “Extra Time PTS”, based on the above listed selections, is already fully determined to be "AOS" as at the point the match is called off. Therefore, bets for “Extra Time PTS” will be valid and the winning selection is "AOS".

Appendix A57 – Extra Time Asian Handicap

Bet Type	“Extra Time Asian Handicap” refers to the type of betting where you bet on the outcome of a football match based on the Extra Time Score, taking into account a Handicap X, which is a positive or negative number) determined by Singapore Pools at our sole and absolute discretion. We may also adjust the value of X as and when we deem it necessary to do so.
Selections available for betting	• Home Team with positive Handicap X (i.e. you are betting that the Home Team will have a higher number of Valid Goals scored after applying the positive Handicap X to the number of Valid Goals scored by the Home Team based on the Extra Time Score or Extra Time Asian Handicap Adjusted Extra Time Score). • Home Team with negative Handicap X (i.e. you are betting that the Home Team will have a higher number of Valid Goals scored after applying the negative Handicap X to the number of Valid Goals scored by the Home Team based on the Extra Time Score or Extra Time Asian Handicap Adjusted Extra Time Score). • Away Team with positive Handicap X (i.e. you are betting that the Away Team will have a higher number of Valid Goals scored after applying the positive Handicap X to the number of Valid Goals scored by the Away Team based on the Extra Time Score or Extra Time Asian Handicap Adjusted Extra Time Score). • Away Team with negative Handicap X (i.e. you are betting that the Away Team will have a higher number of Valid Goals scored after applying the negative Handicap X to the number of Valid Goals scored by the Away Team based on the Extra Time Score or Extra

	Time Asian Handicap Adjusted Extra Time Score). **Illustration:** Where X = 1, then the selections available for betting are Home Team +(1), i.e. (+1) and Away Team -(1), i.e. (-1). Where X = -1, then the selections available for betting are Home Team +(-1), i.e. (-1) and Away Team -(-1), i.e. (+1). Note: "**Extra Time Asian Handicap Adjusted Extra Time Score**" means, where a bet is placed after kickoff of a football match for "Extra Time Asian Handicap" bet type, the score between the point when the bet is placed and the end of Extra Time. For example, in a match between Holland and Iceland, where the score at the end of Regulation Time is 0-0, if the bet is placed in the 95th minute of a football match when the score is 1-0, and the Extra Time Score is 2-1, the Extra Time Asian Handicap Adjusted Extra Time Score is 1-1.
Winning selection	You have a winning selection if: • Where the bet is placed before Extra Time has commenced, you have correctly selected the team with the higher number of goals scored based on the adjusted Extra Time Score after applying the assigned Handicap. • Where the bet is placed after Extra Time has commenced, you have correctly selected the team with the higher number of goals scored after applying the assigned Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score. Note: For Extra Time Asian Handicaps where X = ± Y.25 or ± Y.75 where Y is a whole number, your winnings will be calculated as follows: • Where after applying the Extra Time Asian Handicap to the Extra Time Score or Extra Time Asian Handicap Adjusted Extra Time Score (as the case may be), your selected team wins by a margin of 0.25, you will be awarded winnings based on half of your stake, while the other half of your stake will be refunded to you in full with no winnings. • Where after applying the Extra Time Asian Handicap to the Extra Time Score or Extra Time Asian Handicap Adjusted Extra Time Score (as the case may be), your selected team loses by a margin of 0.25, you will lose half your stake, while the other half of your stake will be refunded to you in full with no winnings. **Illustration 1**: In the match England (Home Team) vs Brazil (Away Team), the Full Time Score is 1-1. During Extra Time, England scores 1 goal while Brazil does not score. England therefore wins with the Extra Time Score at 1-0. If the bets are placed before Extra Time has commenced, the winning selection will be derived after applying the assigned Handicap(s) to the Extra Time Score. For example: • "Extra Time Asian Handicap" where X = 0 has the following

	selections: ○ England (0). This will result in the adjusted Extra Time Score being 1-0 in favour of England. ○ Brazil (0). This will result in the adjusted Extra Time Score being 1-0 in favour of England. Therefore, England (0) will be the winning selection. A S$100 bet on "England (0)" with odds of 1.80 will win a payout of S$100 × 1.80 = S$180. • "Extra Time Asian Handicap" where X = -0.25 has the following selections: ○ England (-0.25). This will result in the adjusted Extra Time Score being 0.75-0 in favour of England. ○ Brazil (+0.25). This will result in the adjusted Extra Time Score being 1-0.25 in favour of England. Therefore, England (-0.25) will be the winning selection. A S$100 bet on "England (-0.25)" with odds of 1.80 will win a payout of S$100 × 1.80 = S$180. • "Extra Time Asian Handicap" where X= -0.5 has the following selections: ○ England (-0.5). This will result in the adjusted Extra Time Score being 0.5-0 in favour of England. ○ Brazil (+0.5). This will result in the adjusted Extra Time Score being 1-0.5 in favour of England. Therefore, England (-0.5) will be the winning selection. A S$100 bet on "England (-0.5)" with odds of 1.80 will win a payout of S$100 × 1.80 = S$180. • "Extra Time Asian Handicap" where X = -0.75 has the following selections: ○ England (-0.75). This will result in the adjusted Extra Time Score being 0.25-0 in favour of England. ○ Brazil (+0.75). This will result in the adjusted Extra Time Score being 1-0.75 in favour of England. Therefore, England (-0.75) will be the winning selection. A S$100 bet on "England (-0.75)" will win with half the stake (S$50) and have the other half of the stake (S$50) returned. Hence, the payout = S$50 × 1.80 + S$50 = S$140. A S$100 bet on "Brazil (+0.75)" with odds of 1.85 will lose half the stake (S$50) and have the other half of the stake (S$50) returned. Hence, the payout = S$0 + S$50 = S$50. • "Extra Time Asian Handicap" where X = -1 has the following selections: ○ England (-1). This will result in the adjusted Extra Time Score being 0-0. ○ Brazil (+1). This will result in the adjusted Extra Time Score being 1-1.

Therefore, there is no winning selection. A S$100 bet on "England (-1)" will have the total stake (S$100) returned. A S$100 bet on "Brazil (+1)" will have the total stake (S$100) returned.

Illustration 2:
In the match England (Home Team) vs Brazil (Away Team), the Full Time Score is 1-1. During Extra Time, England scores 1 goal while Brazil does not score. England therefore wins with the Extra Time Score at 1-0. After England had scored the first goal during Extra Time which resulted in a score of 1-0, the results for bets placed thereafter will be computed / determined based on the Extra Time Asian Handicap Adjusted Extra Time Score of 0-0. For example:

- "Extra Time Asian Handicap" where X = 0 at prevailing score of 1-0 has the following selections:
  - England (0). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 0-0.
  - Brazil (0). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 0-0.

  Therefore, there is no winning selection. A S$100 bet on "England (0)" with odds of 1.80 will have total stake (S$100) returned. A S$100 bet on "Brazil (0)" with odds of 1.85 will have total stake (S$100) returned.

- "Extra Time Asian Handicap" where X = -0.25 at prevailing score of 1-0 has the following selections:
  - England (-0.25). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore -0.25-0 in favour of Brazil.
  - Brazil (+0.25). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 0-0.25 in favour of Brazil.

  Therefore, Brazil (+0.25) is the winning selection. A S$100 bet on "Brazil (+0.25)" with odds of 1.85 will win with half the stake (S$50) and have the other half of the stake (S$50) returned if the Extra Time Score is 1-0. Hence, the payout = S$50 × 1.85 + S$50 = S$142.50.

- "Extra Time Asian Handicap" where X = -0.5 at prevailing score of 1-0 has the following selections:
  - England (-0.5). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore -0.5-0 in favour of Brazil.
  - Brazil (+0.5). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 0-0.5 in favour of Brazil.

  Therefore, Brazil (+0.5) is the winning selection. A S$100 bet on "Brazil (+0.5)" with odds of 1.85 will win a payout of $100 × 1.85 =

	$185 if the Extra Time Score is 1-0.
	
	• "Extra Time Asian Handicap" where X = -0.75 at prevailing score of 1-0 has the following selections:
	  ○ England (-0.75). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore -0.75-0 in favour of Brazil.
	  ○ Brazil (+0.75). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 0-0.75 in favour of Brazil.
	Therefore, Brazil (+0.75) is the winning selection. A S$100 bet on "Brazil (+0.75)" with odds of 1.85 will win a payout of $100 × 1.85 = $185 if the Extra Time Score is 1-0.
	
	Illustration 3:
	In another match Spain vs Peru, the Full Time Score is 1-1. During Extra Time, Spain scores 2 goals while France does not score. The Extra Time Score is therefore 2-0 in favour of Spain.
	
	After Spain had scored the first goal during Extra Time which resulted in a score of 1-0, the results for bets placed thereafter will be computed / determined based on the Extra Time Asian Handicap Adjusted Extra Time Score of 1-0. For example:
	
	• "Extra Time Asian Handicap" where X = 0 at prevailing score of 1-0 has the following selections:
	  ○ Spain (0). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 1-0 in favour of Spain.
	  ○ Peru (0). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 1-0 in favour of Spain.
	Therefore, Spain (0) is the winning selection. A S$100 bet on "Spain (0)" with odds of 1.80 will win a payout of S$100 × 1.80 of S$180 if the Extra Time Score is 2-0.
	
	• "Extra Time Asian Handicap" where X = -0.25 at prevailing score of 1-0 has the following selections:
	  ○ Spain (-0.25). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 0.75-0 in favour of Spain.
	  ○ Peru (+0.25). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 1-0.25 in favour of Spain.
	Therefore, Spain (-0.25) is the winning selection. A S$100 bet on "Spain (-0.25)" with odds of 1.80 will win a payout of S$100 × 1.80 of S$180 if the Extra Time Score is 2-0.
	
	• "Extra Time Asian Handicap" where X= -0.5 at prevailing score of 1-0 has the following selections:

	○ Spain (-0.5). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 0.5-0 in favour of Spain. ○ Peru (+0.5). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 1-0.5 in favour of Spain. Therefore, Spain (-0.5) is the winning selection. A S$100 bet on "Spain (-0.5)" with odds of 1.80 will win a payout of S$100 × 1.80 of S$180 if the Extra Time Score is 2-0. • "Extra Time Asian Handicap" where X = -0.75 at prevailing score of 1-0 has the following selections: ○ Spain (-0.75). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 0.25-0 in favour of Spain. ○ Peru (+0.75). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 1-0.75 in favour of Spain. Therefore, Spain (-0.75) is the winning selection. A S$100 bet on "Spain (-0.75)" with win with half the stake (S$50) and have the other half of the stake (S$50) returned if the Extra Time Score is 2-0. Hence, the payout = S$50 × 1.80 + S$50 = S$140. A S$100 bet on "Peru (+0.75)" with odds of 1.85 will lose half the stake (S$50) and have the other half of the stake (S$50) returned if the Extra Time Score is 2-0. Hence, the payout = S$0 + S$50 = S$50. • "Extra Time Asian Handicap" where X = -1 at prevailing score of 1-0 has the following selections: ○ Spain (-1). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 0-0. ○ Peru (+1). Applying the Handicap to the Extra Time Asian Handicap Adjusted Extra Time Score, the final adjusted Extra Time Score is therefore 1-1. Therefore, there is no winning selection. A S$100 bet on "Spain (-1)" will have the total stake (S$100) returned if the Extra Time Score is 2-0. A S$100 bet on "Peru (+1)" will have the total stake (S$100) returned if the Extra Time Score is 2-0.
Refund of Bets / Special Provisions	• Bets for "Extra Time Asian Handicap" are refunded if both teams have the same number of goals or the result of the football match is goalless scored after applying the assigned Handicap(s), as illustrated above. • Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Extra Time, the bets for "Extra Time Asian Handicap" shall be void and refunded.

Appendix A58 – Extra Time Total Goals Odd/Even

Bet Type	"Extra Time Total Goals Odd/Even" refers to the type of betting where you bet on whether the total number of Valid Goals scored by both teams) in a football match during Extra Time is an odd or even number.
Selections available for betting	• Odd • Even
Winning selection	You have a winning selection if you have correctly selected whether the total number of goals scored by both teams, based on the Extra Time Score, is an odd or even number. If the total number of Valid Goals scored, based on the Extra Time Score, is zero, then "even" is considered the winning selection.
Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Extra Time, the bets for "Extra Time Total Goals Odd/Even" shall be void and refunded.

Appendix A59 – Extra Time 1/2 Goal

Bet Type	"Extra Time 1/2 Goal" refers to the type of betting where you bet on the outcome of a football match based on the Extra Time Score, taking into account a predetermined Handicap X (where X is a positive or negative decimal number) which is determined by Singapore Pools at our sole and absolute discretion. We may also adjust the value of X as and when we deem it necessary to do so.
Selections available for betting	• Home Team with positive Handicap X (i.e. you are betting that the Home Team will have a higher number of Valid Goals after applying the positive Handicap X to the Extra Time Score). • Home Team with negative Handicap X (i.e. you are betting that the Home Team will have a higher number of Valid Goals after applying the negative Handicap X to the Extra Time Score) • Away Team with positive Handicap X (i.e. you are betting that the Away Team will have a higher number of Valid Goals after applying the positive Handicap X to the Extra Time Score) • Away Team with negative Handicap X (i.e. you are betting that the Away Team will have a higher number of Valid Goals after applying the negative Handicap X to the Extra Time Score).
Winning selection	You have a winning selection if you have correctly selected the team with the higher number of Valid Goals scored after applying the assigned Handicap(s) to the Extra Time Score. **Illustration**:

	In the match Italy vs France, the Full Time Score is 1-1. During Extra Time, Italy scores 3 goals while France scores 1 goal. Italy therefore wins with the Extra Time Score at 3-1: • "Extra Time 1/2 goal" where X= -1.5 has the following selections: o Italy (-1.5). This will result in the adjusted Extra Time Score being 1.5-1 in favour of Italy. o France (+1.5). This will result in the adjusted Extra Time Score being 3-2.5 in favour of Italy. Therefore, Italy (-1.5) will be the winning selection. • "Extra Time 1/2 goal" where X= +1.5 has the following selections: o Italy (+1.5): This will result in the adjusted Extra Time Score being 4.5-1 in favour of Italy. o France (-1.5). This will result in the adjusted Extra Time Score being 3-(-0.5) in favour of Italy. Therefore, Italy (+1.5) will be the winning selection. • "Extra Time 1/2 goal" where X= -2.5 has the following selections: o Italy (-2.5). This will result in the adjusted Extra Time Score being 0.5-1 in favour of France. o France (+2.5). This will result in the adjusted Extra Time Score being 3-3.5 in favour of France. Therefore, France (+2.5) will be the winning selection. • "Extra Time 1/2 goal" where X= +2.5 has the following selections: o Italy (+2.5). This will result in the adjusted Extra Time Score being 5.5-1 in favour of Italy. o France (-2.5). This will result in the adjusted Extra Time Score being 3-(-1.5) in favour of Italy. Therefore, Italy (+2.5) will be the winning selection.
Refund of Bets / Special Provisions	Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Extra Time, the bets for "Extra Time 1/2 Goal" shall be void and refunded.

Appendix A60 – Extra Time Total Goals

Bet Type	"Extra Time Total Goals" refers to the type of betting where you bet on how many Valid Goals will be scored in total (i.e. regardless of whether Home Team or the Away Team scores the Valid Goals) in a football match according to the Extra Time Score.
Selections available for betting	• Any number of Valid Goals scored in the football match during Extra Time up to X (where "X" is a whole number starting from 1 as may be determined by Singapore Pools at our sole and absolute discretion)

<table>
<tr><td></td><td>

- More than X Valid Goals scored in the football match during Extra Time
- No Valid Goals scored

</td></tr>
<tr><td>Winning selection</td><td>You have a winning selection if you have correctly selected the total number of Valid Goals scored by both teams according to the Extra Time Score.</td></tr>
<tr><td>Refund of Bets / Special Provisions</td><td>Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Extra Time, the bets for “Extra Time Total Goals” shall be void and refunded, unless the result for “Extra Time Total Goals” is already fully determined as at the point the match is called off.

Illustration 1:
In the match Argentina vs USA, the match was abandoned at the 103th minute with score of 1-0. If the selections listed for “Extra Time Total Goals” is as follow:

<table>
<tr><td>0 goal</td><td>1 goal</td><td>2+ goals</td></tr>
</table>

The result of this bet for “Extra Time Total Goals”, based on the above listed selections, cannot be determined at the point the match is called off. This is because if the match had continued, the winning selection could have been "1 Goal" or "2+ Goals". Therefore, the bets for “Extra Time Total Goals” will be void and refunded in this case.

Illustration 2:
In the match New Zealand vs Peru, the match was abandoned at the 115th minute with score of 2-0. If the selections listed for “Extra Time Total Goals” is as follow:
<table>
<tr><td>0 goal</td><td>1 goal</td><td>2+ goals</td></tr>
</table>

Score 2-0 is already beyond the list of possible “Extra Time Total Goals” outcomes. The result for “Extra Time Total Goals”, based on the above listed selections, is already fully determined to be “2+ Goals” as at the point the match is called off. Therefore, bets for “Extra Time Total Goals” will be valid in this case and the winning selection is “2+ Goals”.</td></tr>

Appendix A61 – Extra Time Team to Score 1st Goal

Bet Type	"Extra Time Team to Score 1st Goal" refers to the type of betting where you bet on which team will score the first goal of a football match during Extra Time.
Selections available for betting	• Home Team • Away Team • No Valid Goals scored ("**No 1st Goal**")
Winning selection	You have a winning selection if (1) you have correctly selected the team which scored the first Valid Goal in the football match during Extra Time; **or** (2) in the event that no Valid Goals are scored in the football match during Extra Time, you selected "No 1st Goal".
Refund of Bets / Special Provisions	• Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) after a Valid Goal is scored, and where Singapore Pools has declared a result for "Extra Time Team to Score 1st Goal", there shall be no refunds. • However, if there are no Valid Goals scored in the football match during the Extra Time at the time the match is called off (including but not limited to abandonment, postponement, suspension and cancellation), the bets for "Extra Time Team to Score 1st Goal" shall be void and refunded.

Appendix A62 – Extra Time Team to Score Xth Goal

Bet Type	"Extra Time Team to Score Xth Goal" refers to the type of betting where you bet on which team will score the Xth goal of a football match during Extra Time, where X is a whole number starting from 1.
Selections available for betting	• Home Team • Away Team • No Xth goal
Winning selection	You will have a winning selection if (1) you correctly selected the team which scored the Xth Valid Goal in the football match during Extra Time; **or** (2) in the event no Xth Valid Goal was scored in the football match during Extra Time, you selected "No Xth Goal".
Refund of Bets / Special Provisions	• Each bet event for "Extra Time Team to Score Xth Goal" shall be closed when a goal is scored, but a new bet event may be opened by Singapore Pools at our sole and absolute discretion. **Illustration:** In a match between Brazil and England, the Full Time Score is 0-0. "Extra Time Team to Score 1st Goal" is opened because the next

	Valid Goal to be scored will be the 1st Valid Goal of Extra Time. When Brazil scored the 1st Valid Goal of Extra Time at 99th minute to make the score 1-0, "Extra Time Team to Score 1st Goal" will be closed, but Singapore Pools may open "Extra Time Team to Score 2nd Goal" because the next Valid Goal to be scored will be the 2nd Valid Goal of Extra Time. • Where a football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of Extra Time, bets for "Extra Time Team to Score Xth Goal" shall be void and refunded unless the result is already fully determined as at the point the match is called off. Where a match is called off (including but not limited to abandonment, postponement, suspension and cancellation) during Extra Time after the Xth Valid Goal is scored in Extra Time, bets on "Extra Time Team to Score Xth Goal" shall be valid. **Illustration:** In the illustration above, if the match is called off at the 96th minute at a score 1-0, bets for "Extra Time Team to Score 1st Goal" will be valid because the result is already fully determined at the point the match is called off. Bets for "Extra Time Team to Score 2nd Goal" will be void and refunded because the result is not determined at the point the match is called off.

Appendix A63 – Extra Time - Will Both Teams Score

Bet Type	"Extra Time - Will Both Teams Score" refers to the type of betting where you bet on whether each team will score at least one Valid Goal during Extra Time of a football match.
Selections available for betting	• Yes • No
Winning selection	You have a winning selection if you have correctly selected whether each team will score at least one Valid Goal in a football match during Extra Time or not.
Refund of Bets / Special Provisions	Where the football match is called off (including but not limited to abandonment, postponement, suspension and cancellation) before the end of the Extra Time, the bets for "Extra Time - Will Both Teams Score" shall be void and refunded, unless the result for "Extra Time - Will Both Teams Score" is already fully determined at the point the match is called off. **Illustration 1:** In a match between Japan and England, where the Full Time Score was 0-0, the match was abandoned during the Extra Time at an Extra Time

	Score of 1-1. Bets for "Extra Time - Will Both Teams Score" will be valid with winning selection "Yes". This is because at the point of abandonment, both Japan and England had already scored at least one Valid Goals each during the Extra Time. **Illustration 2**: In a match between Australia and Sweden, the match was abandoned during the Extra Time at a score of 1-0. Bets for "Extra Time - Will Both Teams Score" will be void and refunded. This is because at the point of abandonment, only Australia had scored at least one Valid Goal during the Extra Time, and if the match had continued, it is possible that Sweden may have scored a Valid Goal as well during the Extra Time, thus affecting the winning selection for "Extra Time - Will Both Teams Score".
