UNDERSTANDING BET TYPES

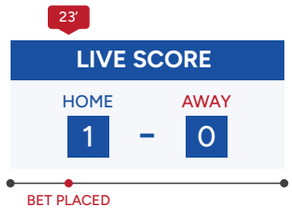

BET TYPE:
ASIAN HANDICAP LIVE

If the bet is placed after kickoff, only goals scored from the point when the bet is placed until the end of regulation time are counted.

HOW ASIAN HANDICAP LIVE WORKS

STEP 1

Bet is placed during the match

Selection: **Away -1**

STEP 2

Calculate the Asian Handicap Adjusted Full Time Score

Score when bet was placed:	1 - 0
Full Time score:	2 - 3
Adjusted Full Time score (2 - 1) minus (1 - 0) =	1 - 3

Count only the goals scored after the bet is placed

STEP 3

Apply the handicap to your selected team

Adjusted score:	1 - 3
Selection:	Away -1
After handicap:	1 - 2
Result:	WIN

After getting the adjusted score, apply the handicap to the team you selected to determine Win/Push/Lose

The handicap is applied **after the adjusted full time score** is calculated.

EXAMPLES
